### **Mapping the Energy-Water Nexus around the Pacific Rim**

Vincent Tidwell and Barbie Moreland  
Sandia National Laboratories

Below are additional maps and tables supporting the paper “Mapping the Energy-Water Nexus around the Pacific Rim”. Maps include:

1. Water consumption for energy production:
  - a. Thermoelectric power,
  - b. Coal extraction,
  - c. Oil extraction,
  - d. Natural gas extraction,
  - e. Uranium extraction,
  - f. Unconventional oil and natural gas extraction,
  - g. Oil refining,
  - h. Biofuel refining, and
  - i. Hydropower capacity.
2. Total water consumption for energy production.
3. Water Risk (WRI 2015)
4. Total water consumption mapped on water risk.
5. Total water consumption mapped on water risk centered on particular geographic regions:
  - a. Australia and New Zealand,
  - b. Brunei, Indonesia, Malaysia and Singapore,
  - c. Canada,
  - d. Chile and Peru,
  - e. China and Hong Kong, China
  - f. Japan and Korea,
  - g. Mexico,
  - h. Papua New Guinea,

- i. Philippines and Chinese Taipei,
  - j. Russia,
  - k. Thailand and Viet Nam,
  - l. United States.
6. Table of water consumption for energy production by APEC member economy
  7. Energy consumption for water services:
    - a. Drinking water,
    - b. Wastewater, and
    - c. Desalination.
  8. Table of energy used to provide water services by water sector and APEC member economy

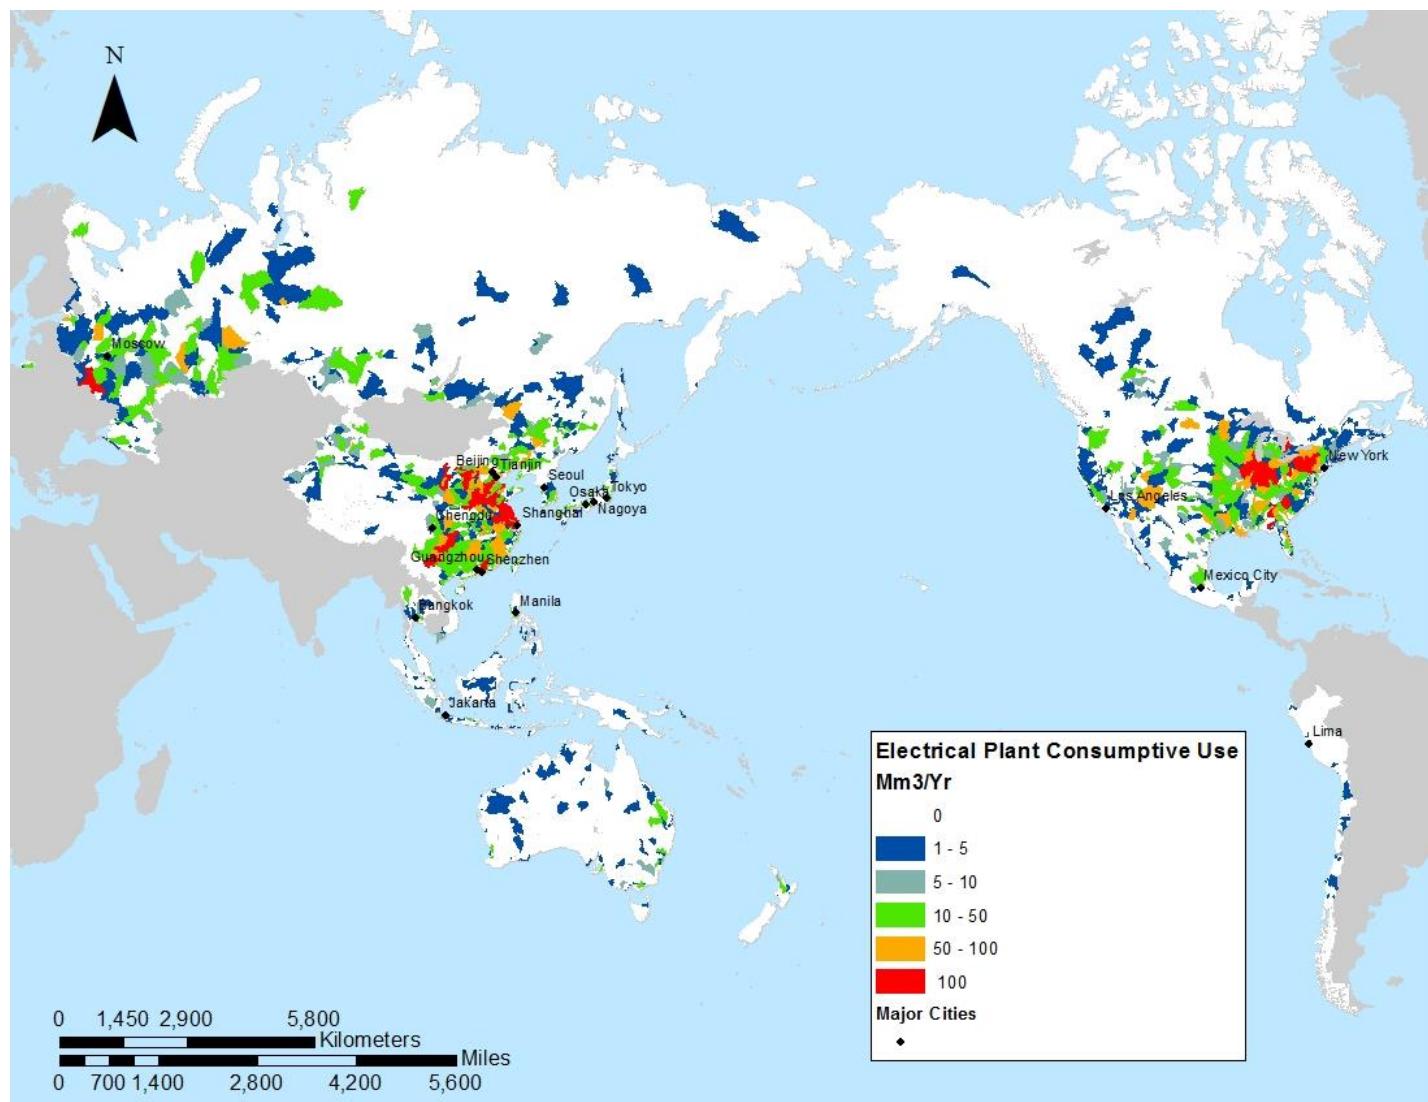

Figure A.1: Water consumed by thermoelectric power generation in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

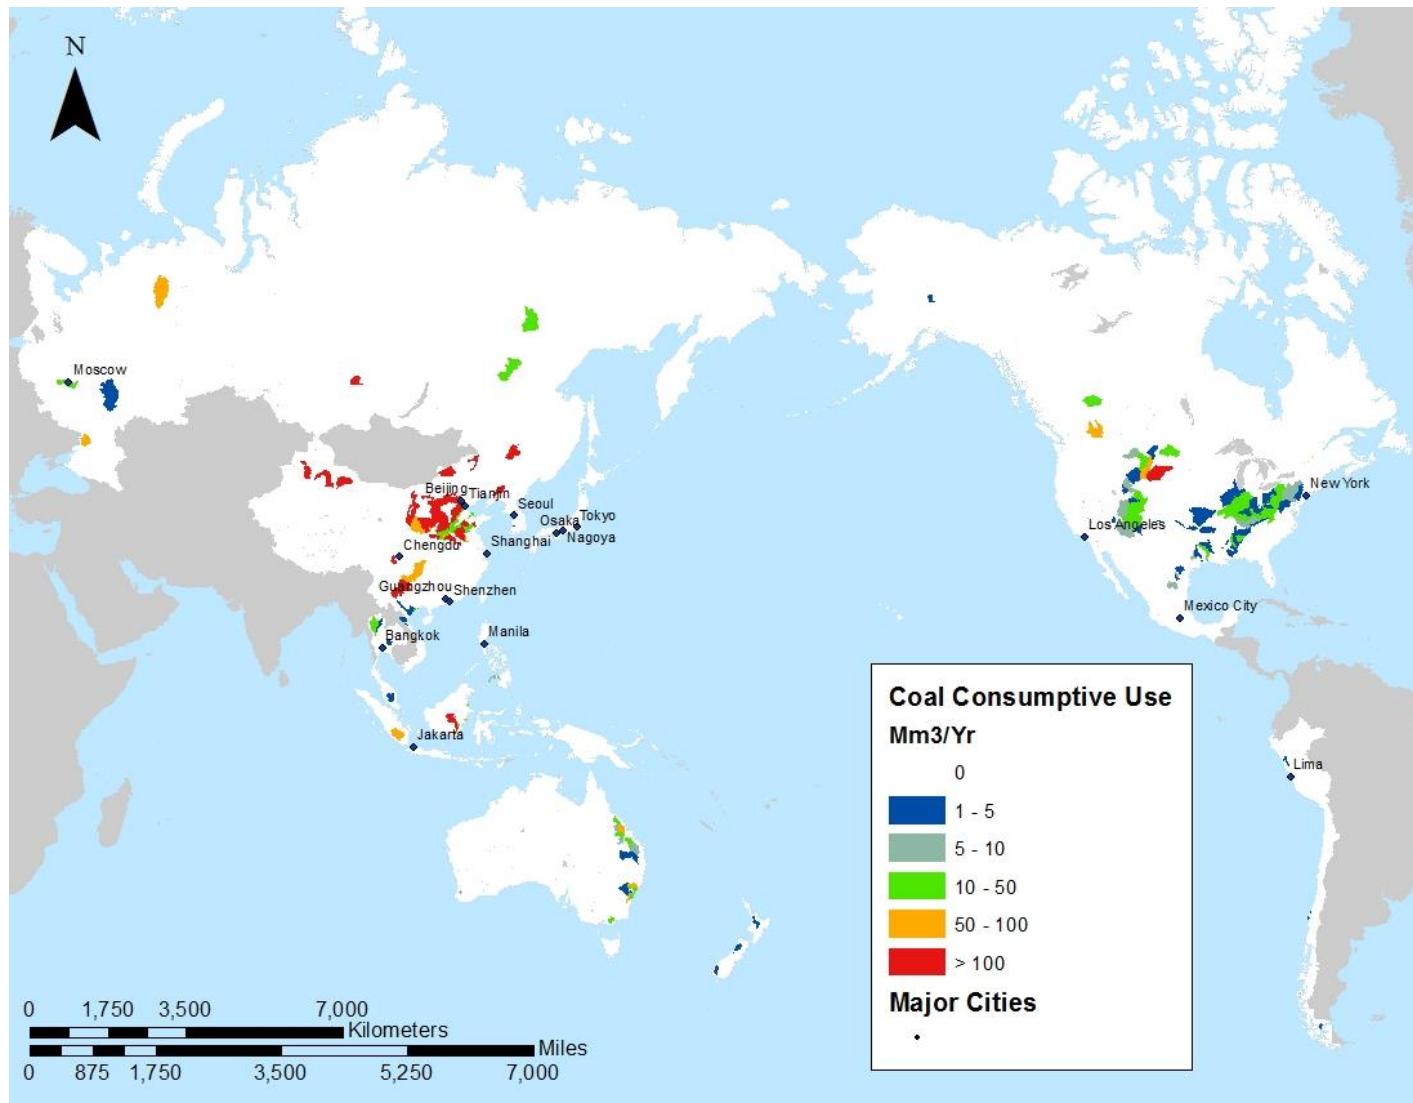

Figure A2: Water consumed for coal extraction in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

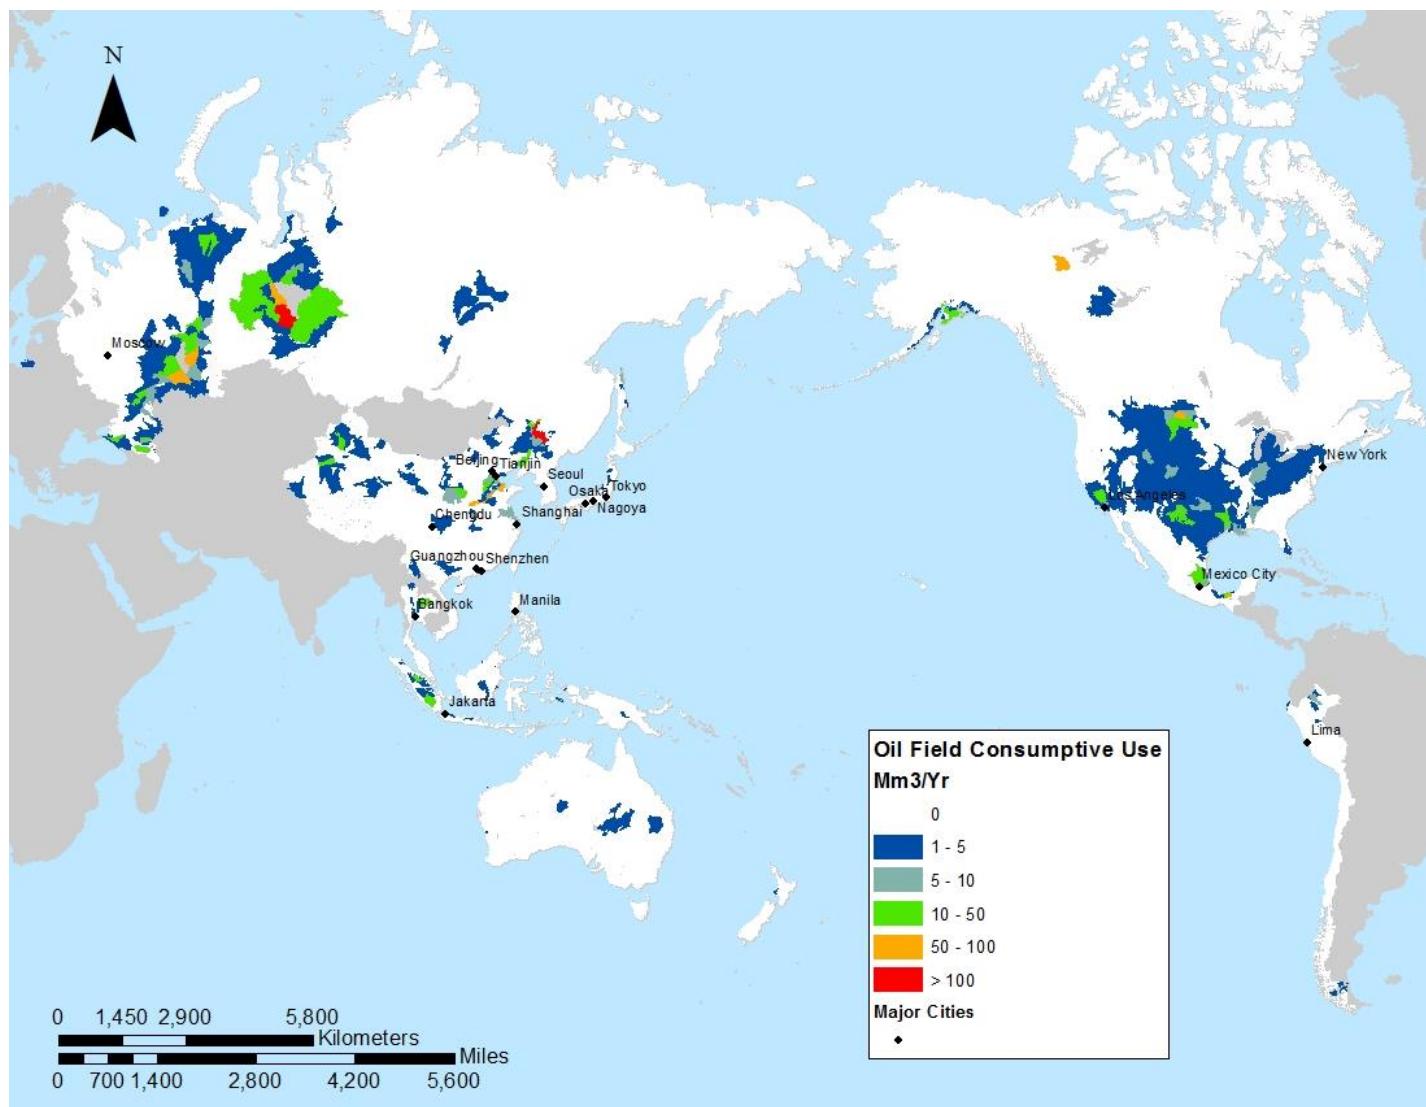

Figure A.3: Water consumed oil extraction in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

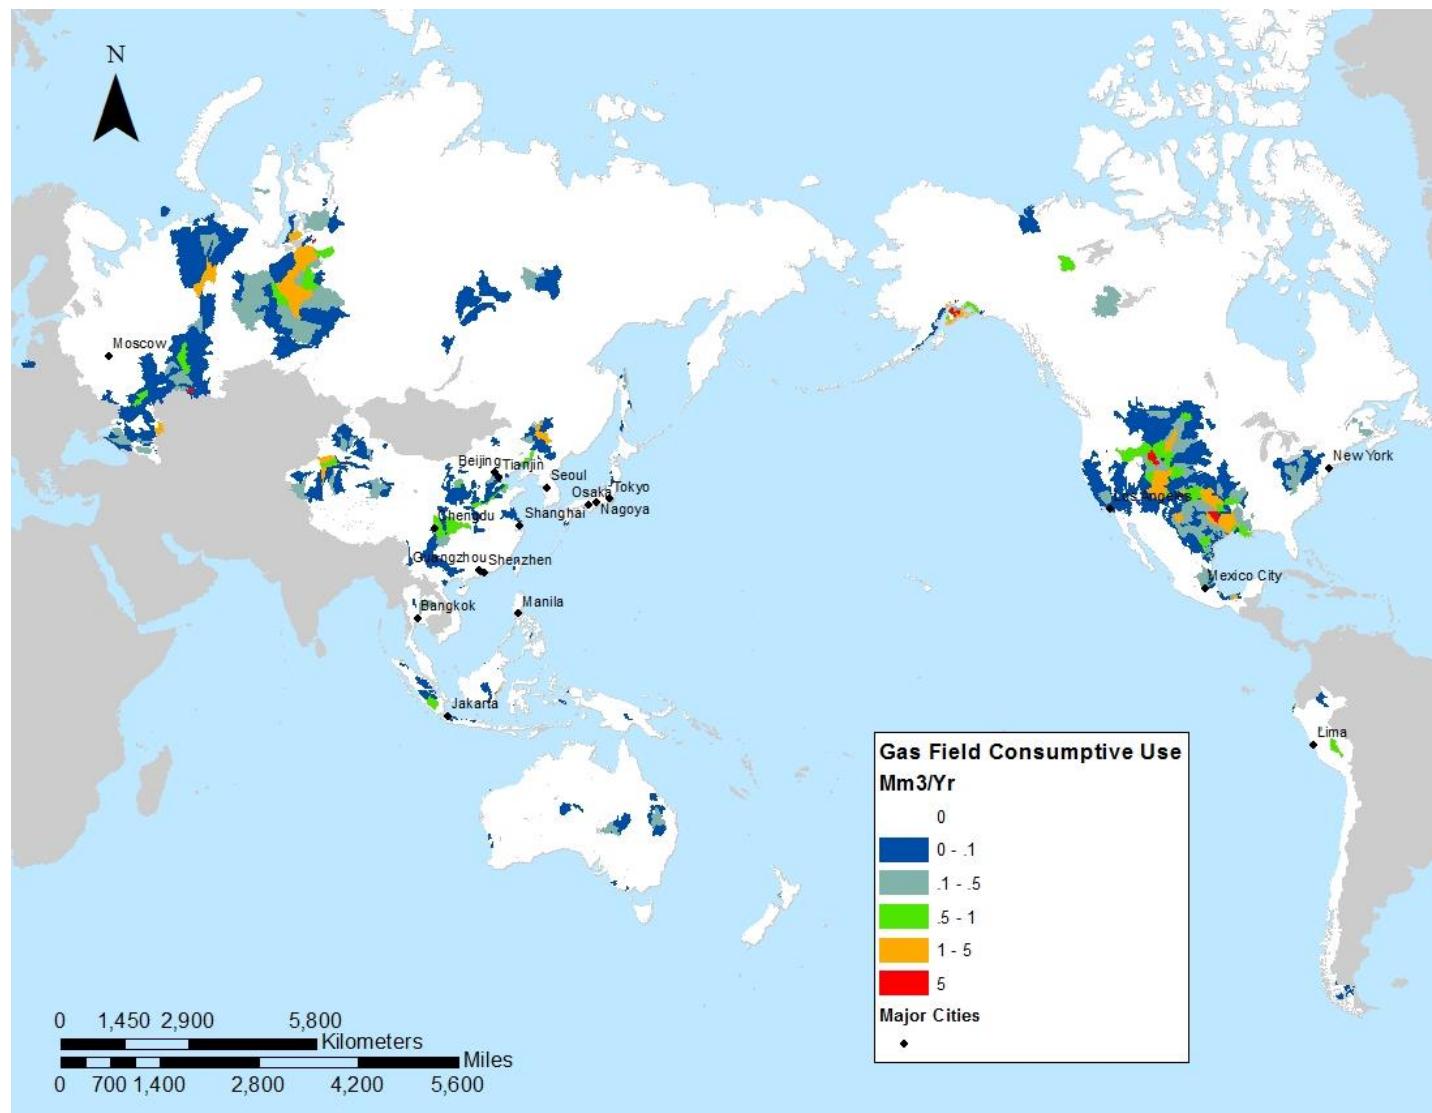

Figure A4: Water consumed for natural gas extraction in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

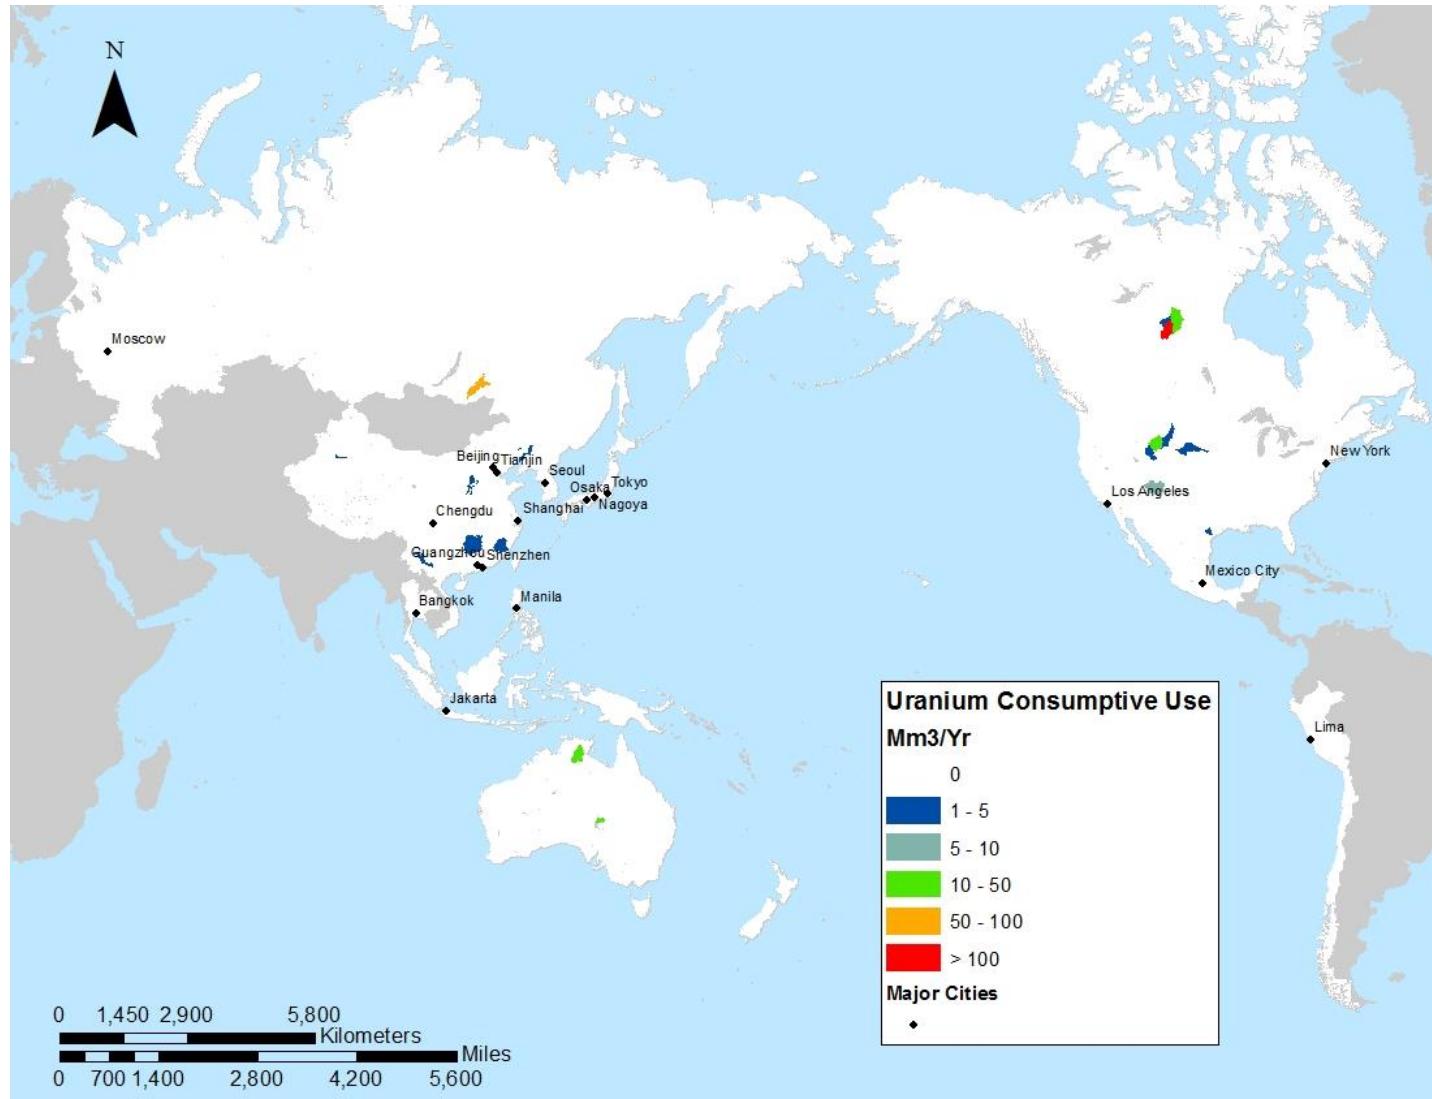

Figure A5: Water consumed for uranium extraction in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

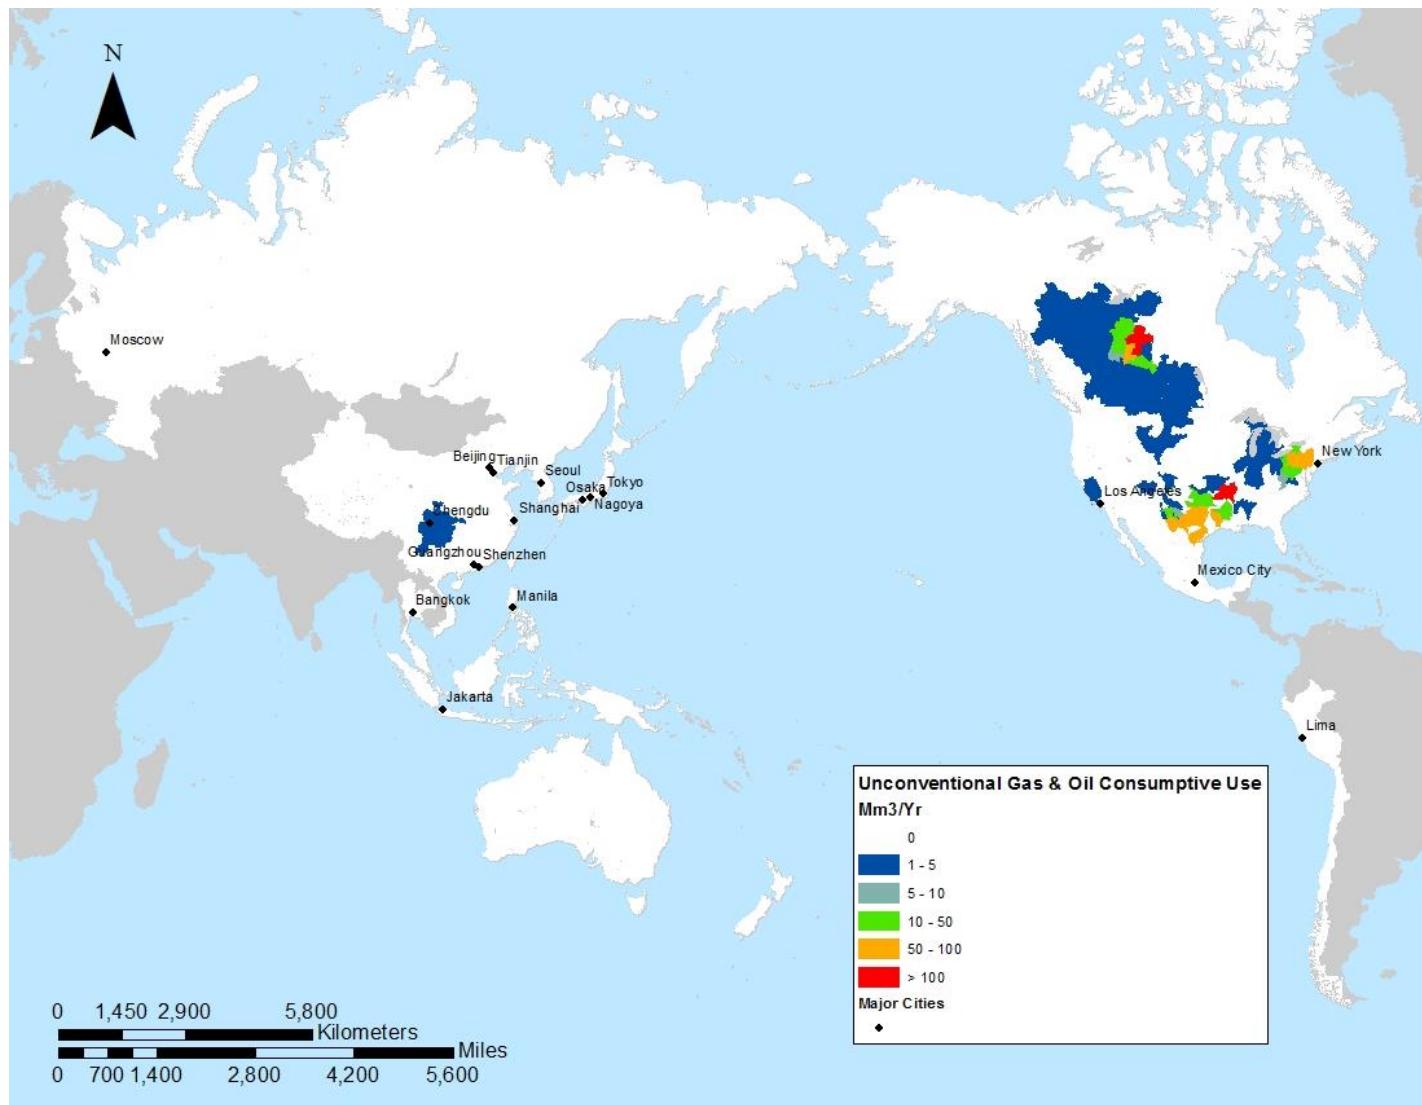

Figure A6: Water consumed for unconventional oil and gas extraction in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

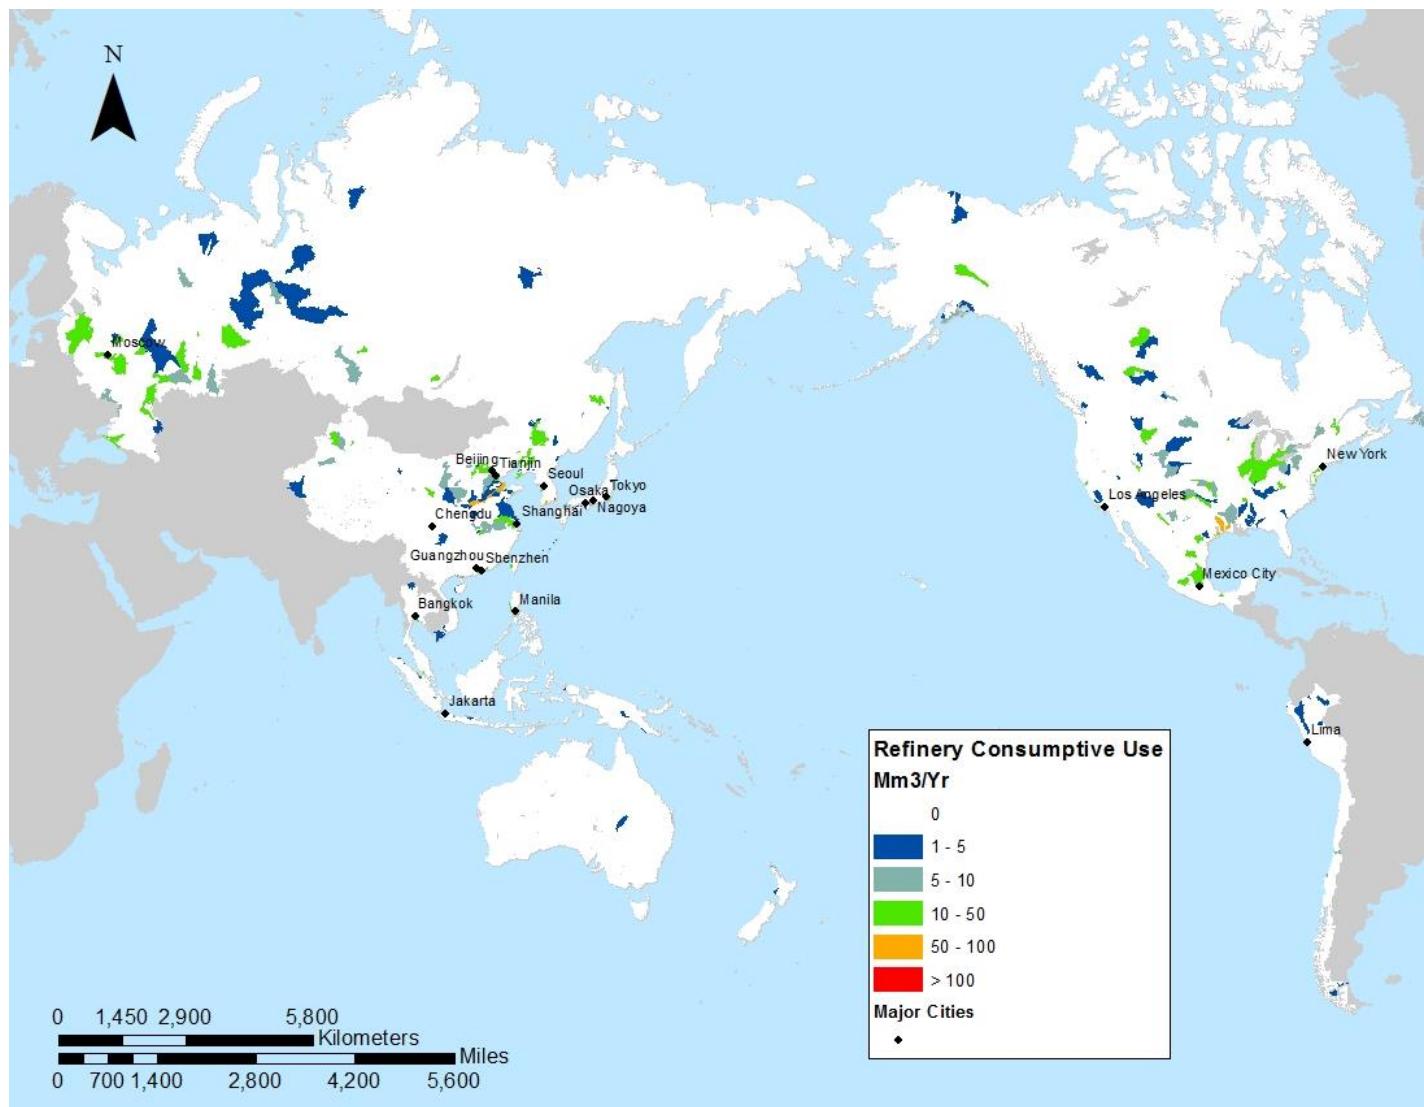

Figure A7: Water consumed for oil refining in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

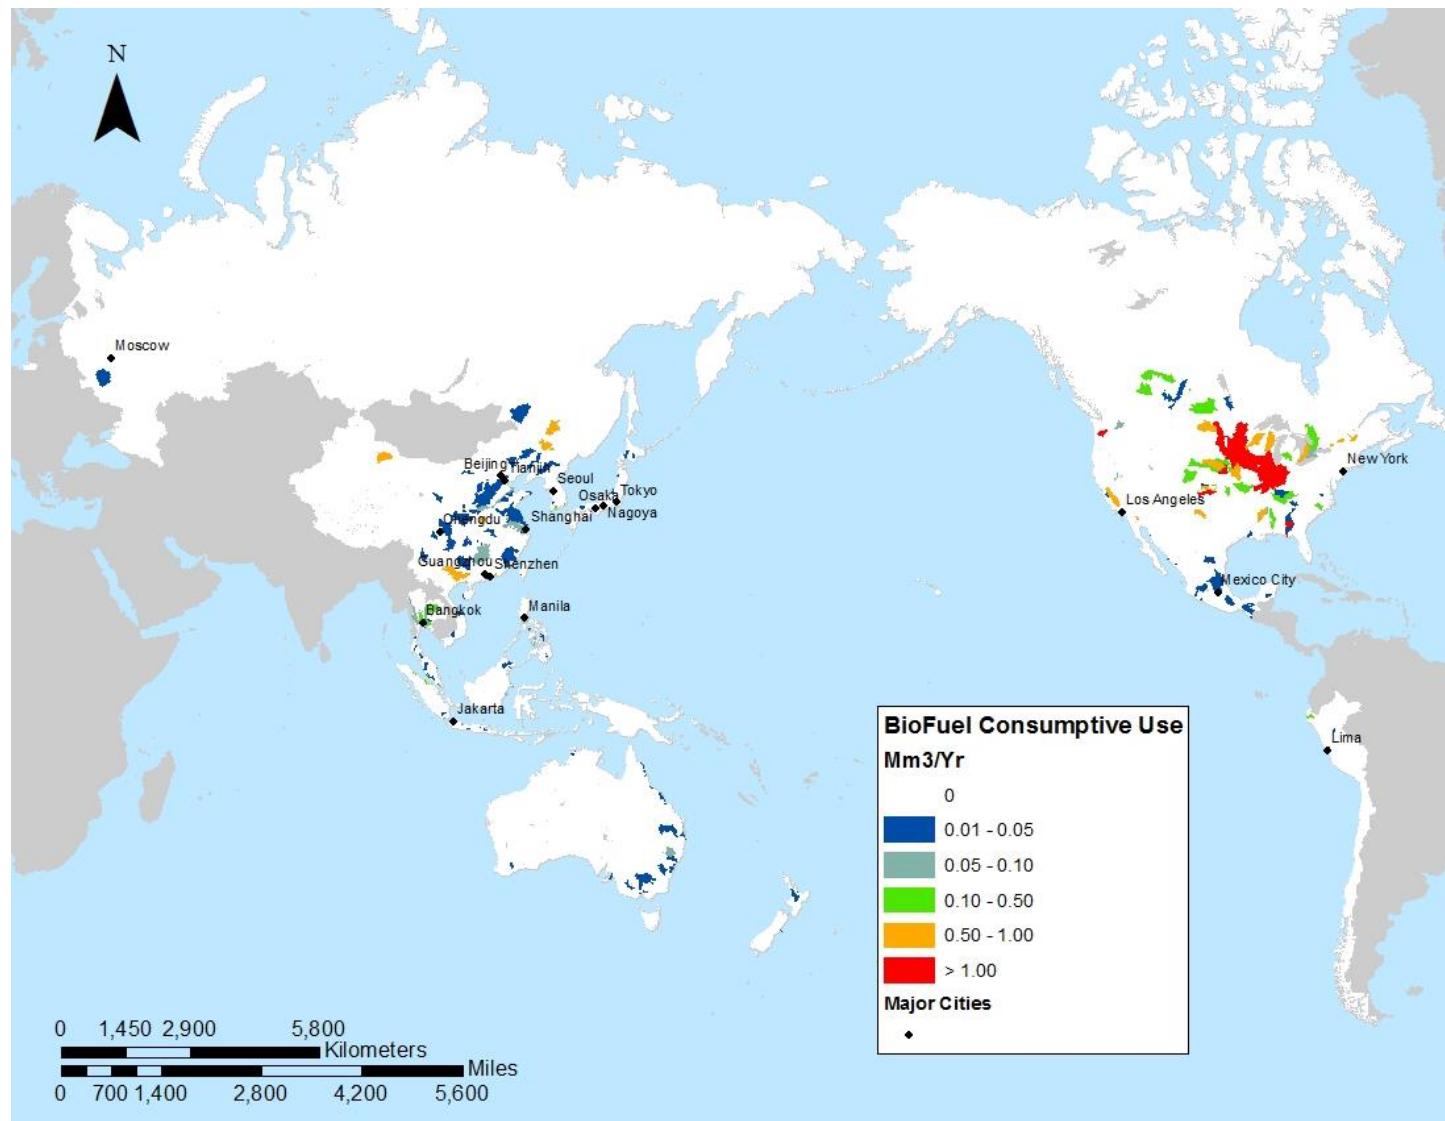

Figure A8: Water consumed for biofuel refining in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

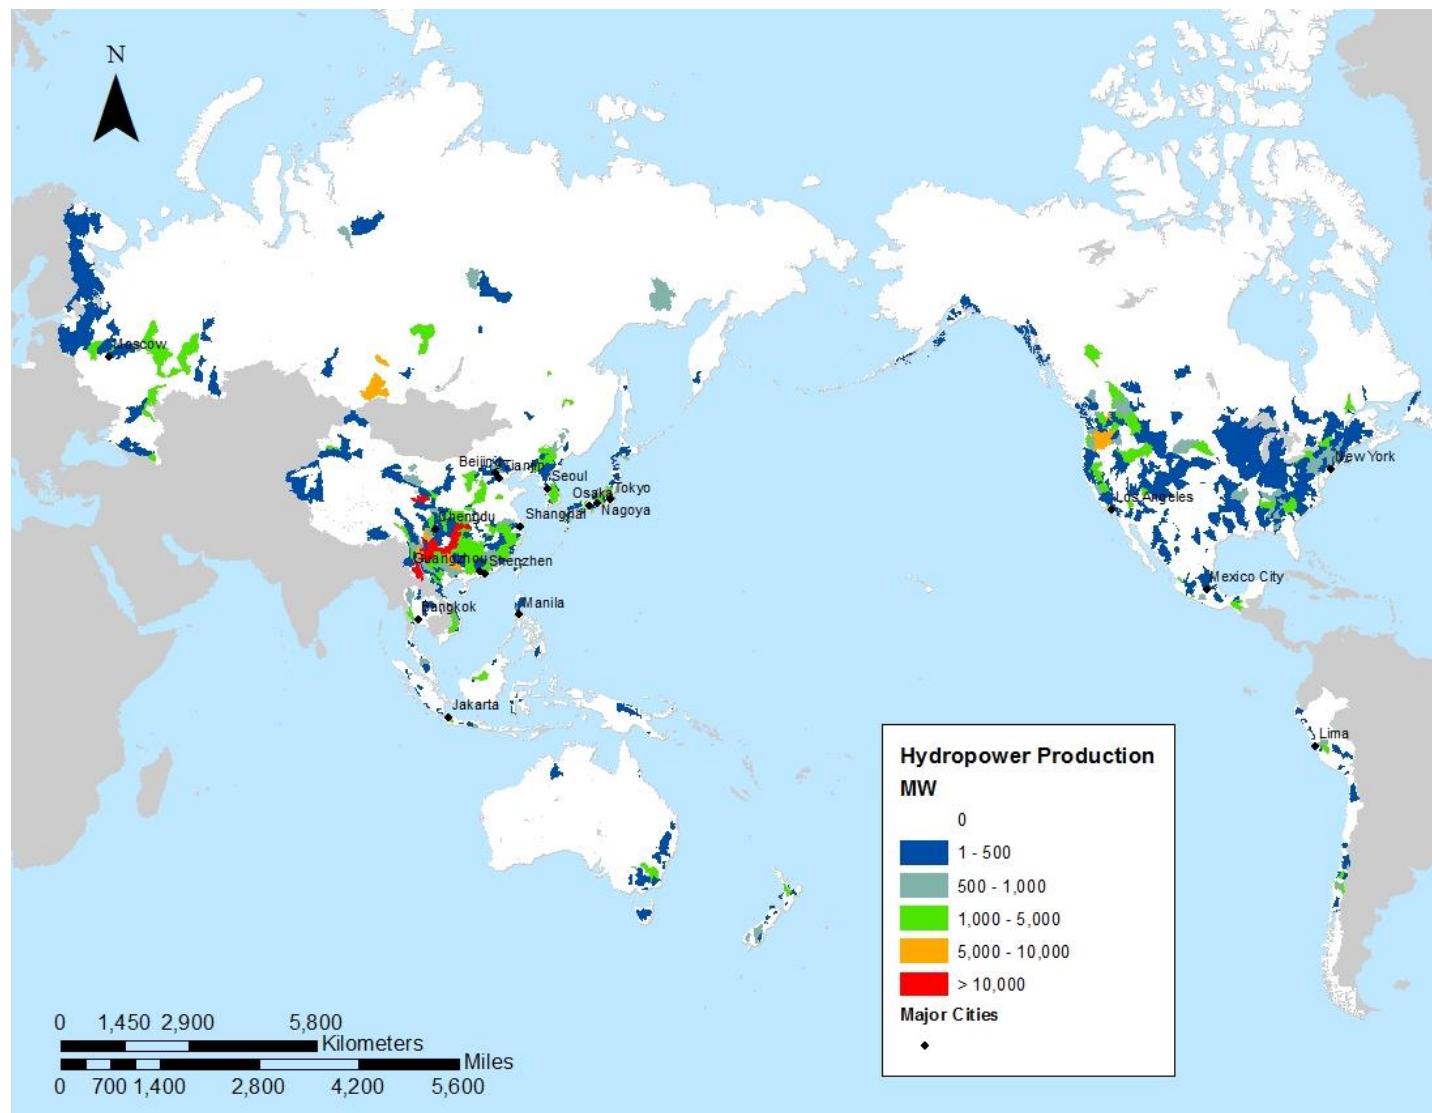

Figure A9: Hydropower capacity in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

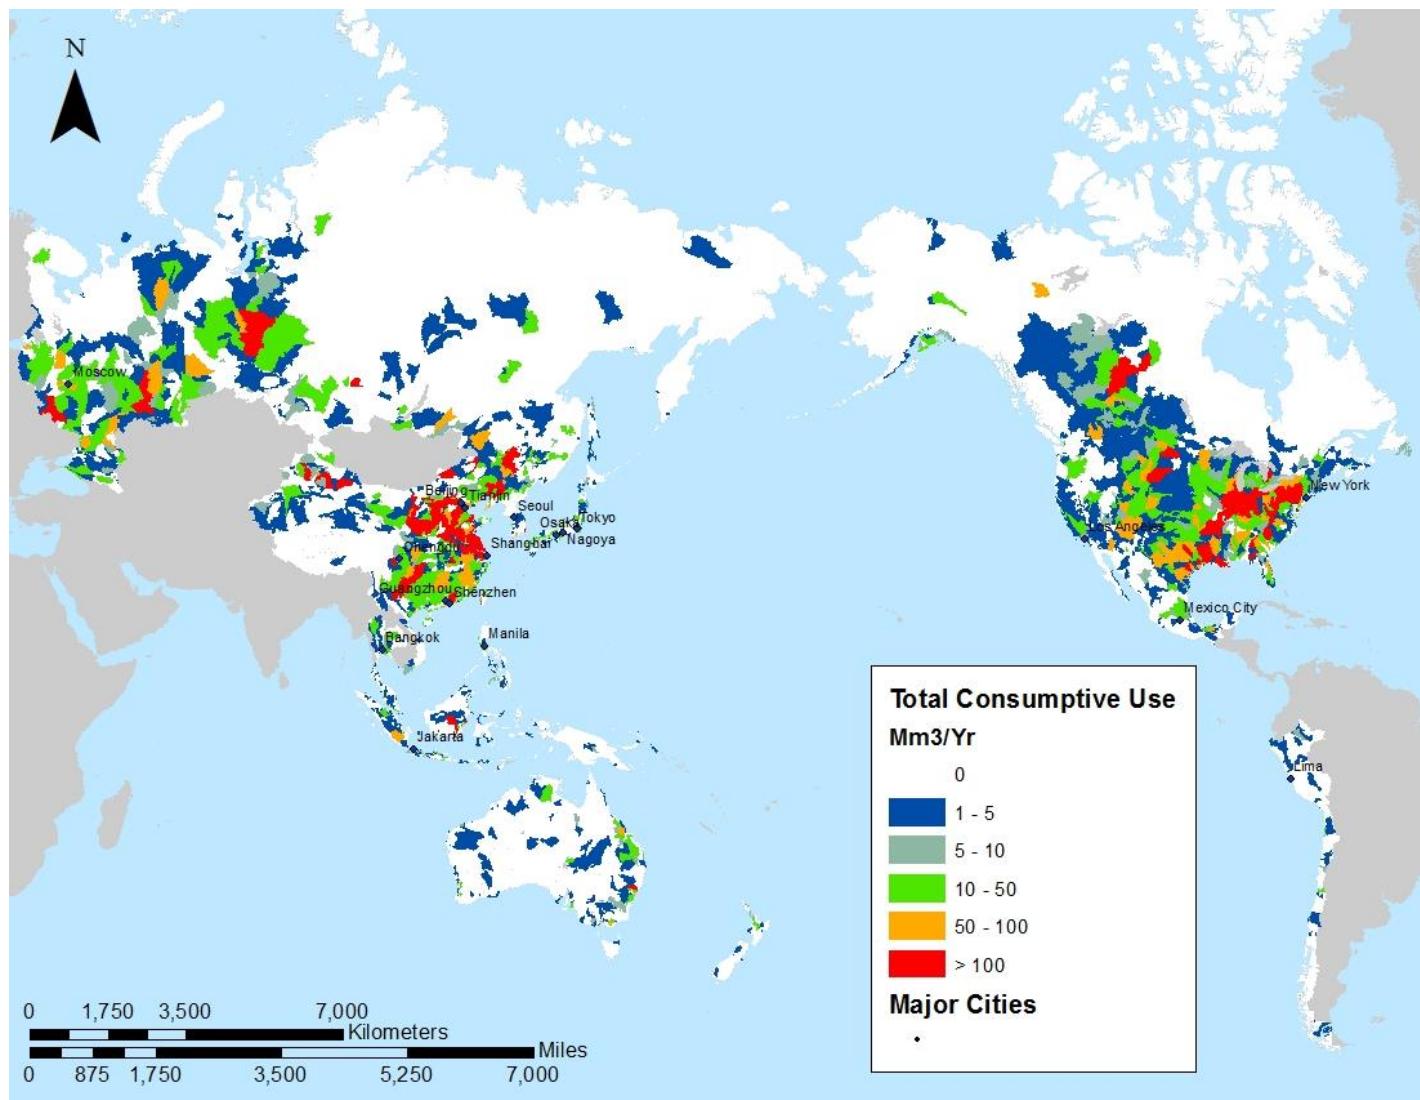

Figure A10: Total water consumed for energy production in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

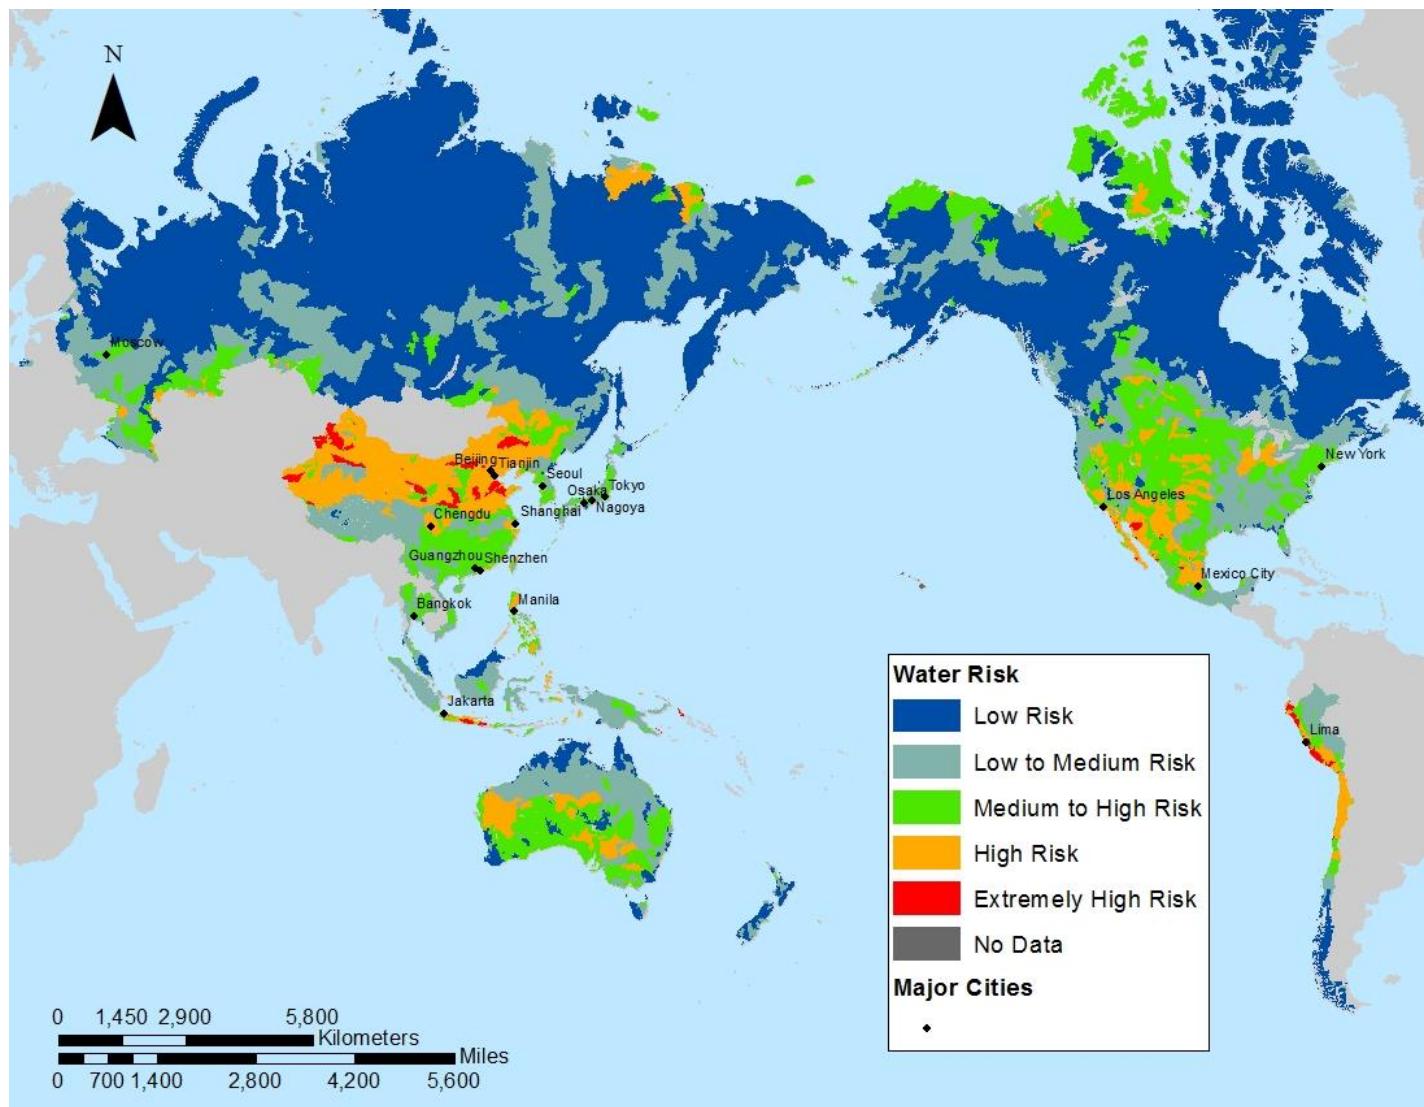

Figure A11: Water risk in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region. Data are reproduced from WRI (2015).

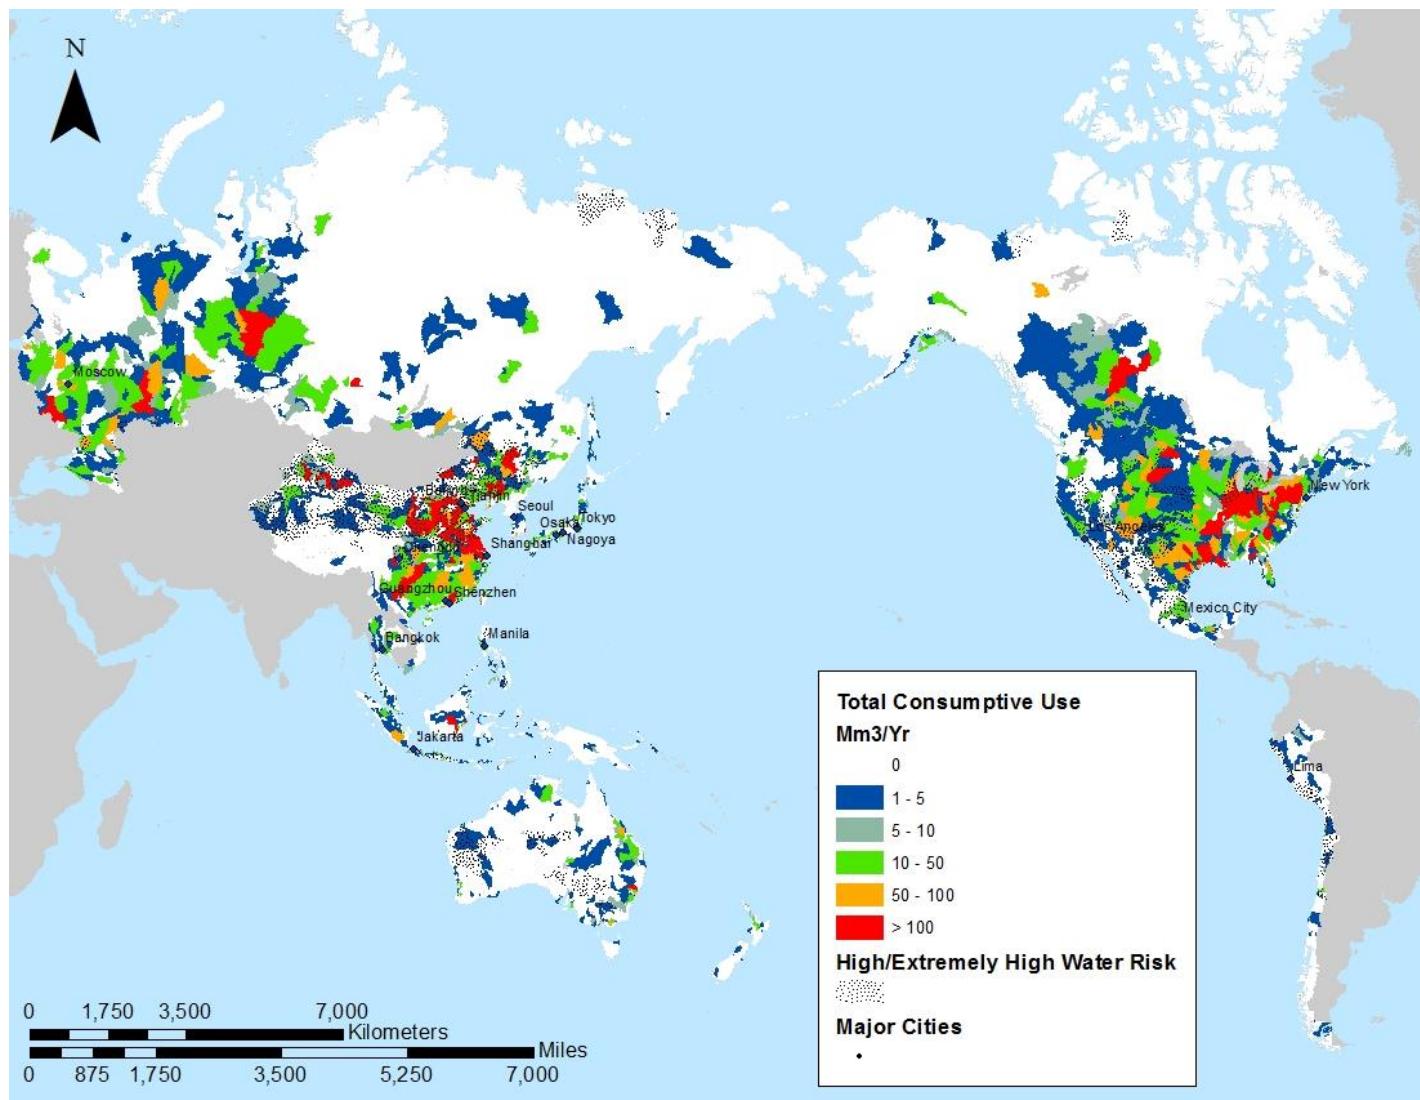

Figure A12: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]). Data are mapped for the 21-member economies of APEC for almost 12,000 watersheds across this region.

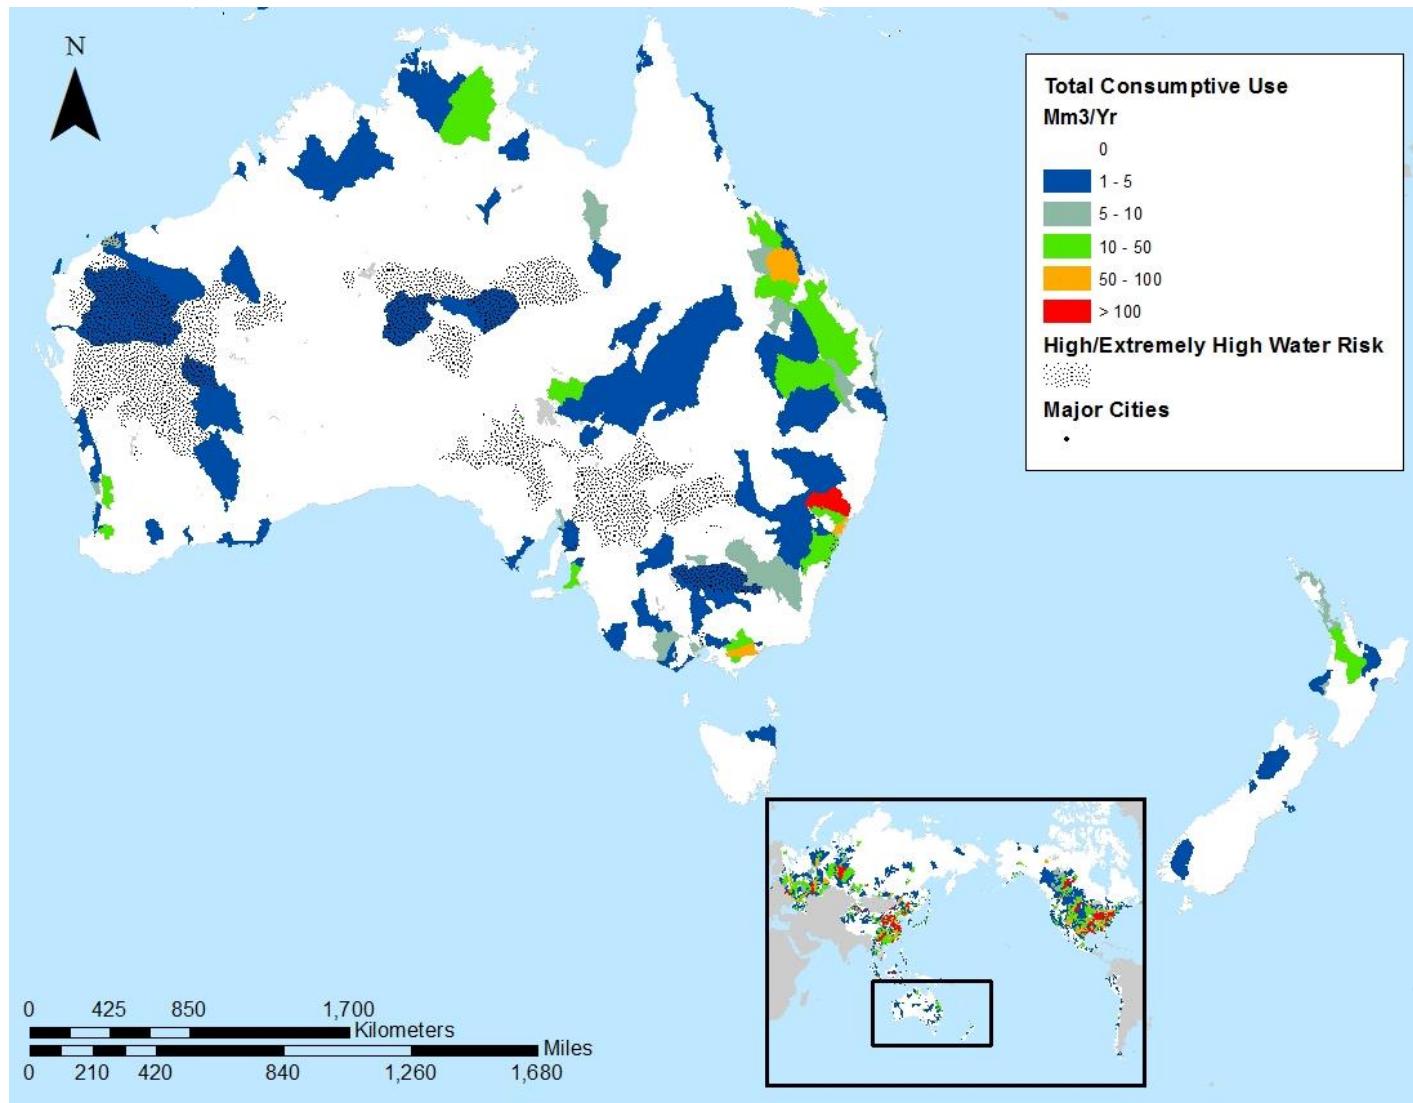

Figure A13: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for Australia and New Zealand.

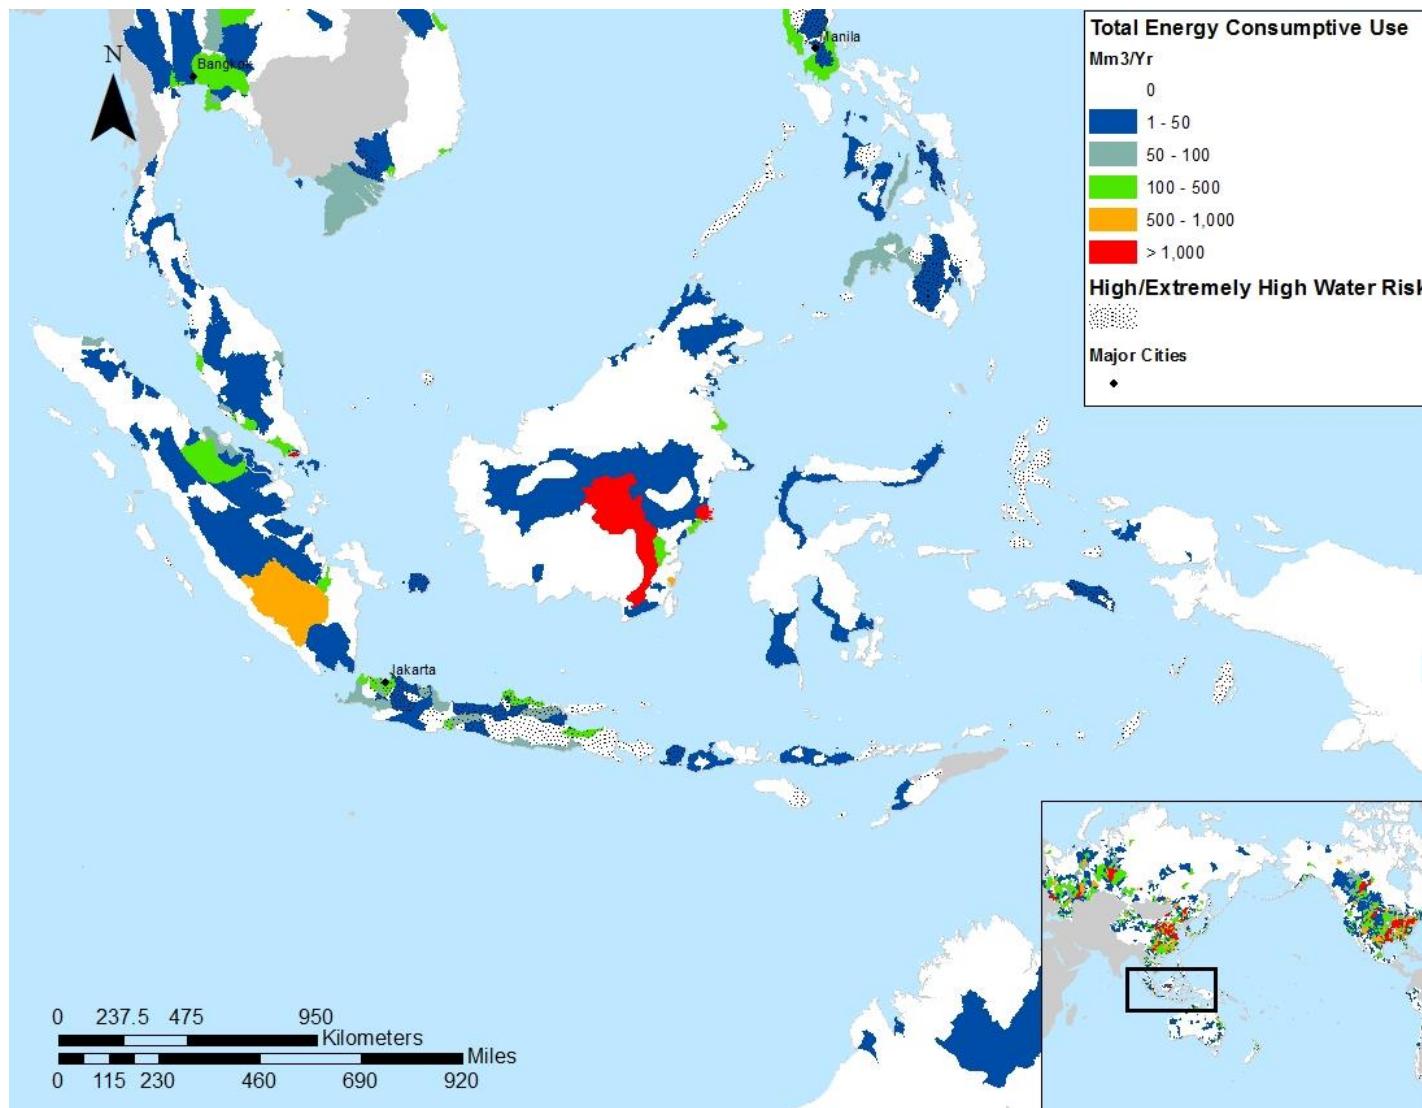

Figure A14: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for Brunei, Indonesia, Malaysia and Singapore.

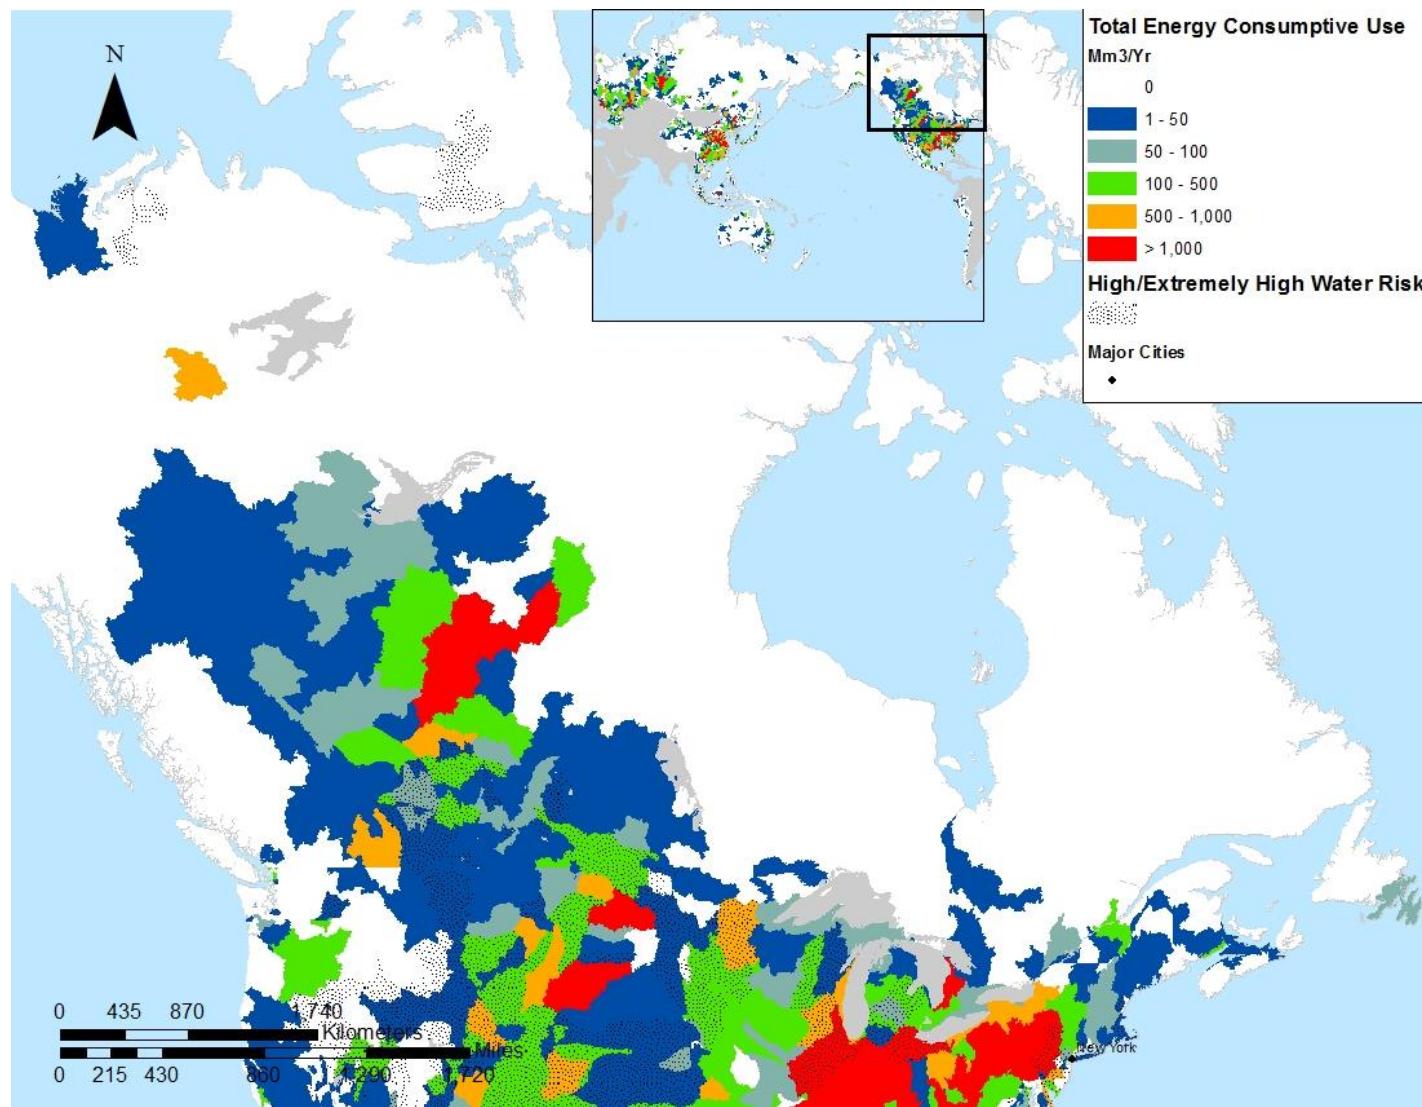

Figure A15: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for Canada.

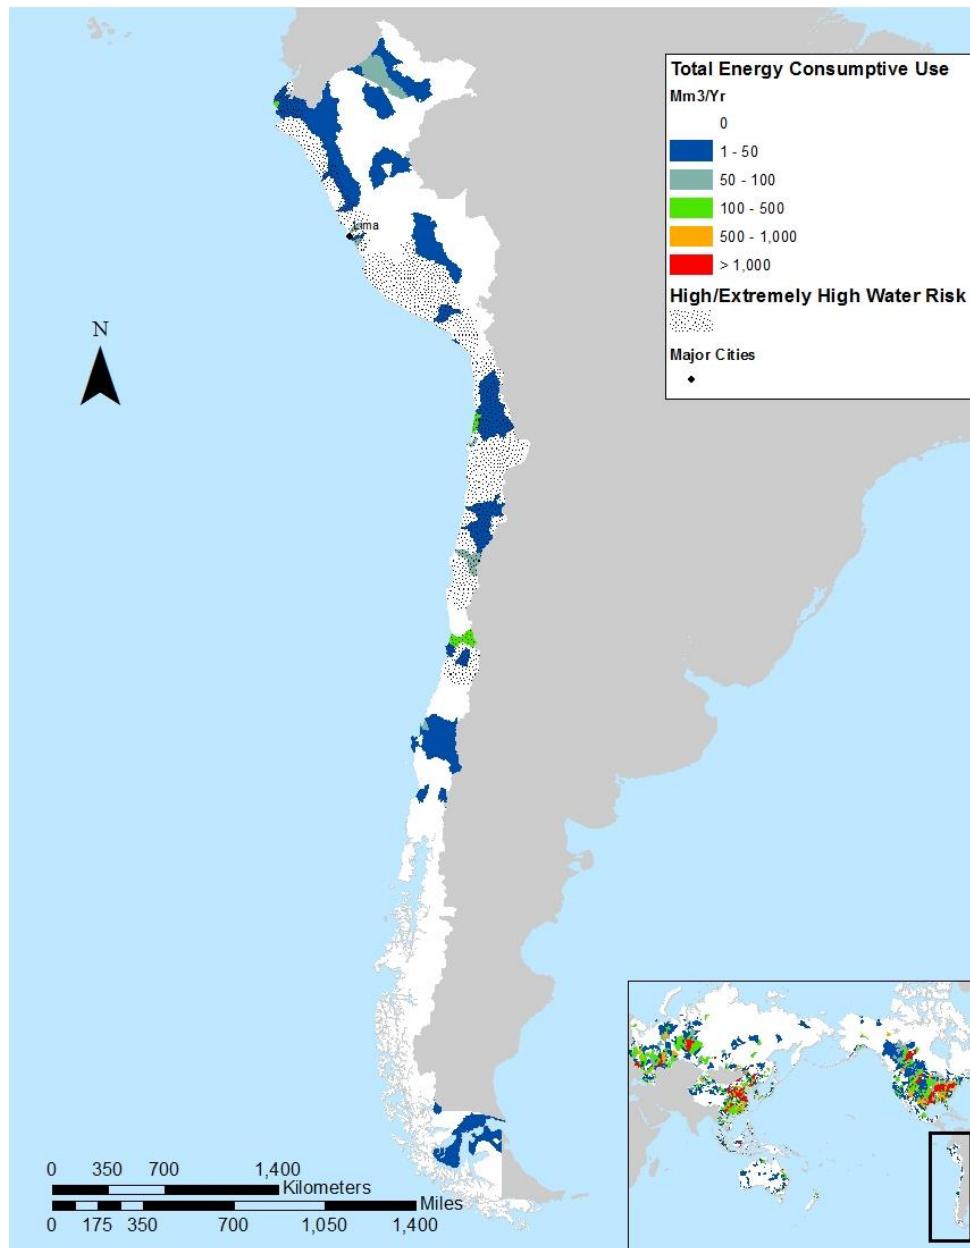

Figure A16: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for Chile and Peru.

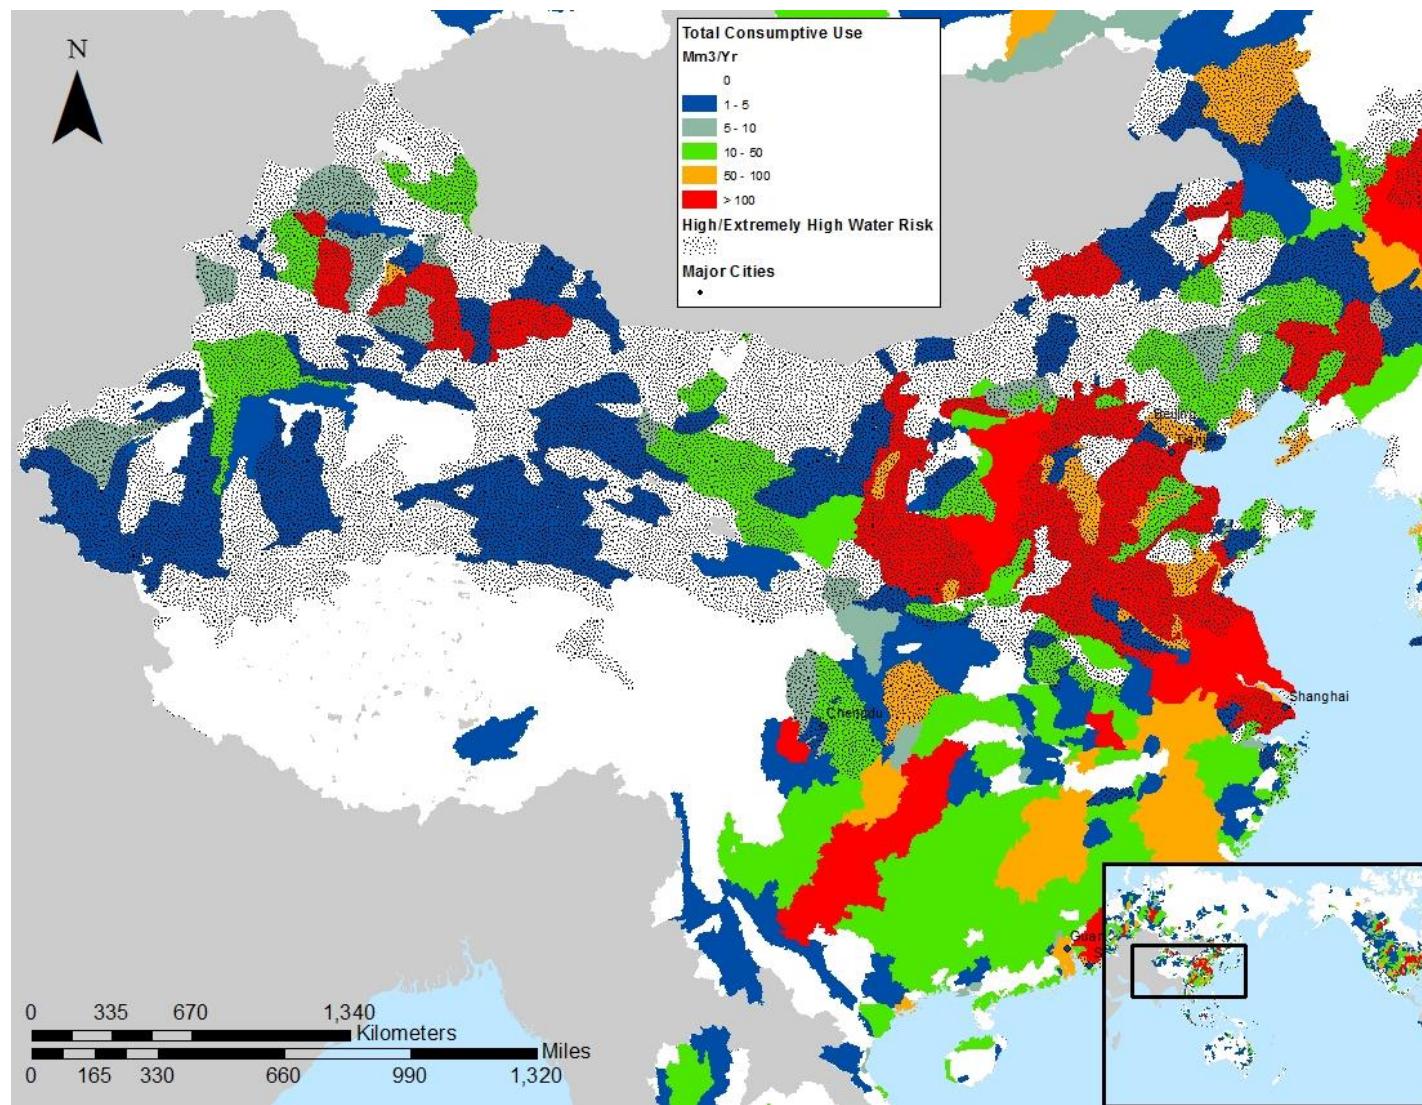

Figure A17: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for China and Hong Kong, China.

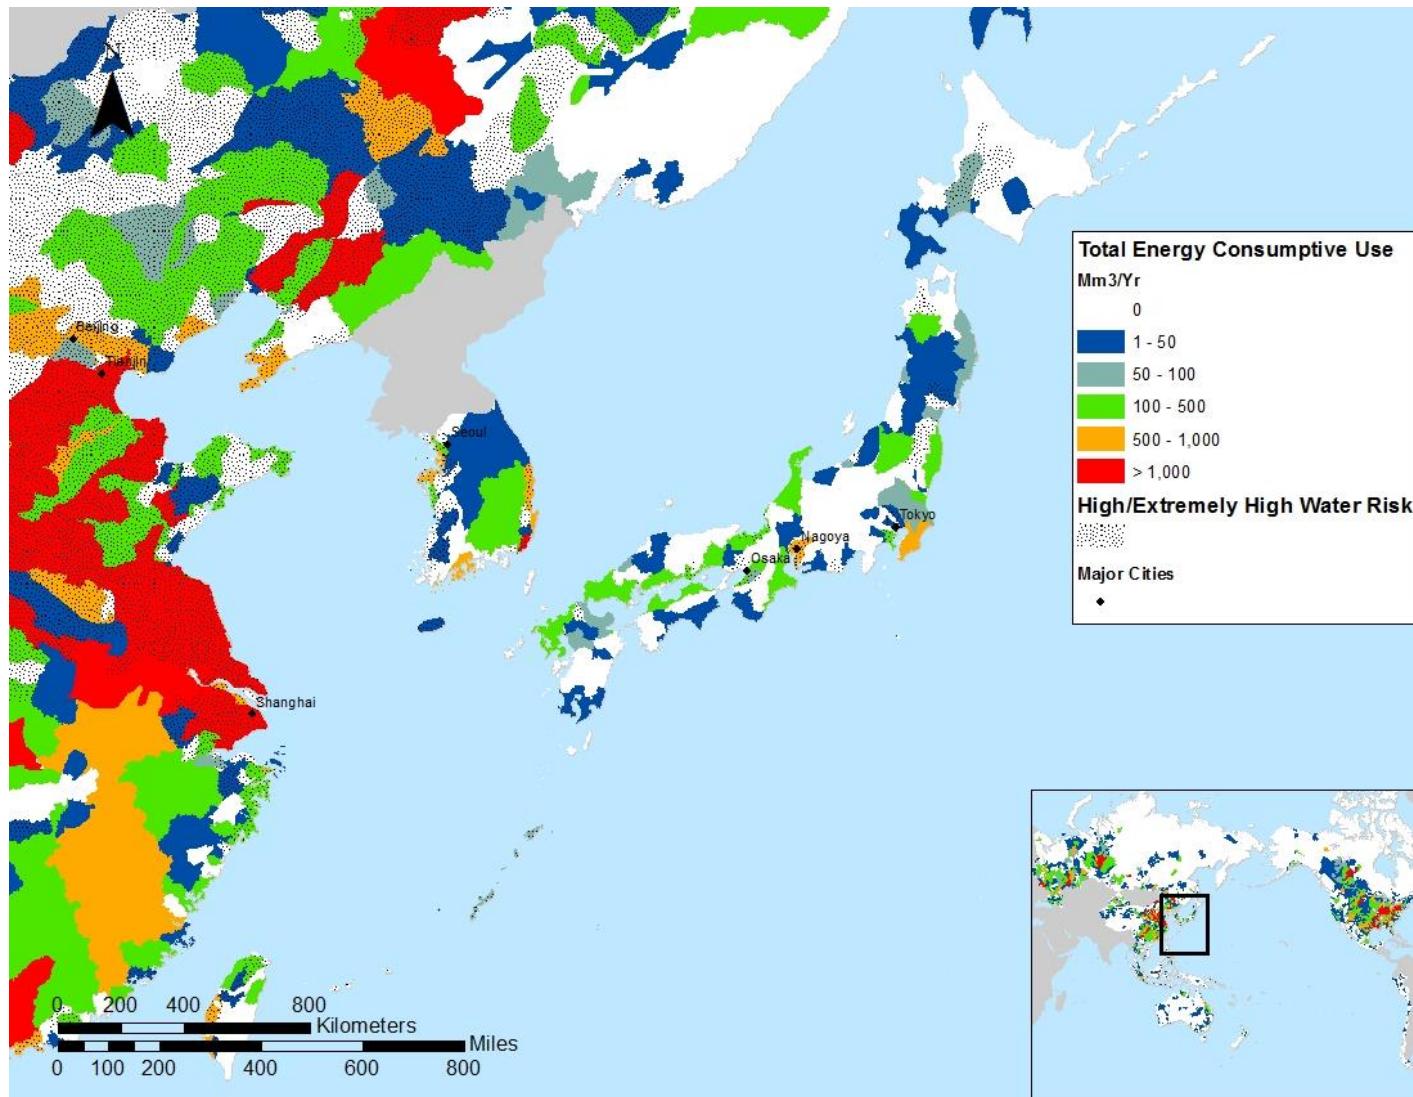

Figure A18: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for Japan and Korea.

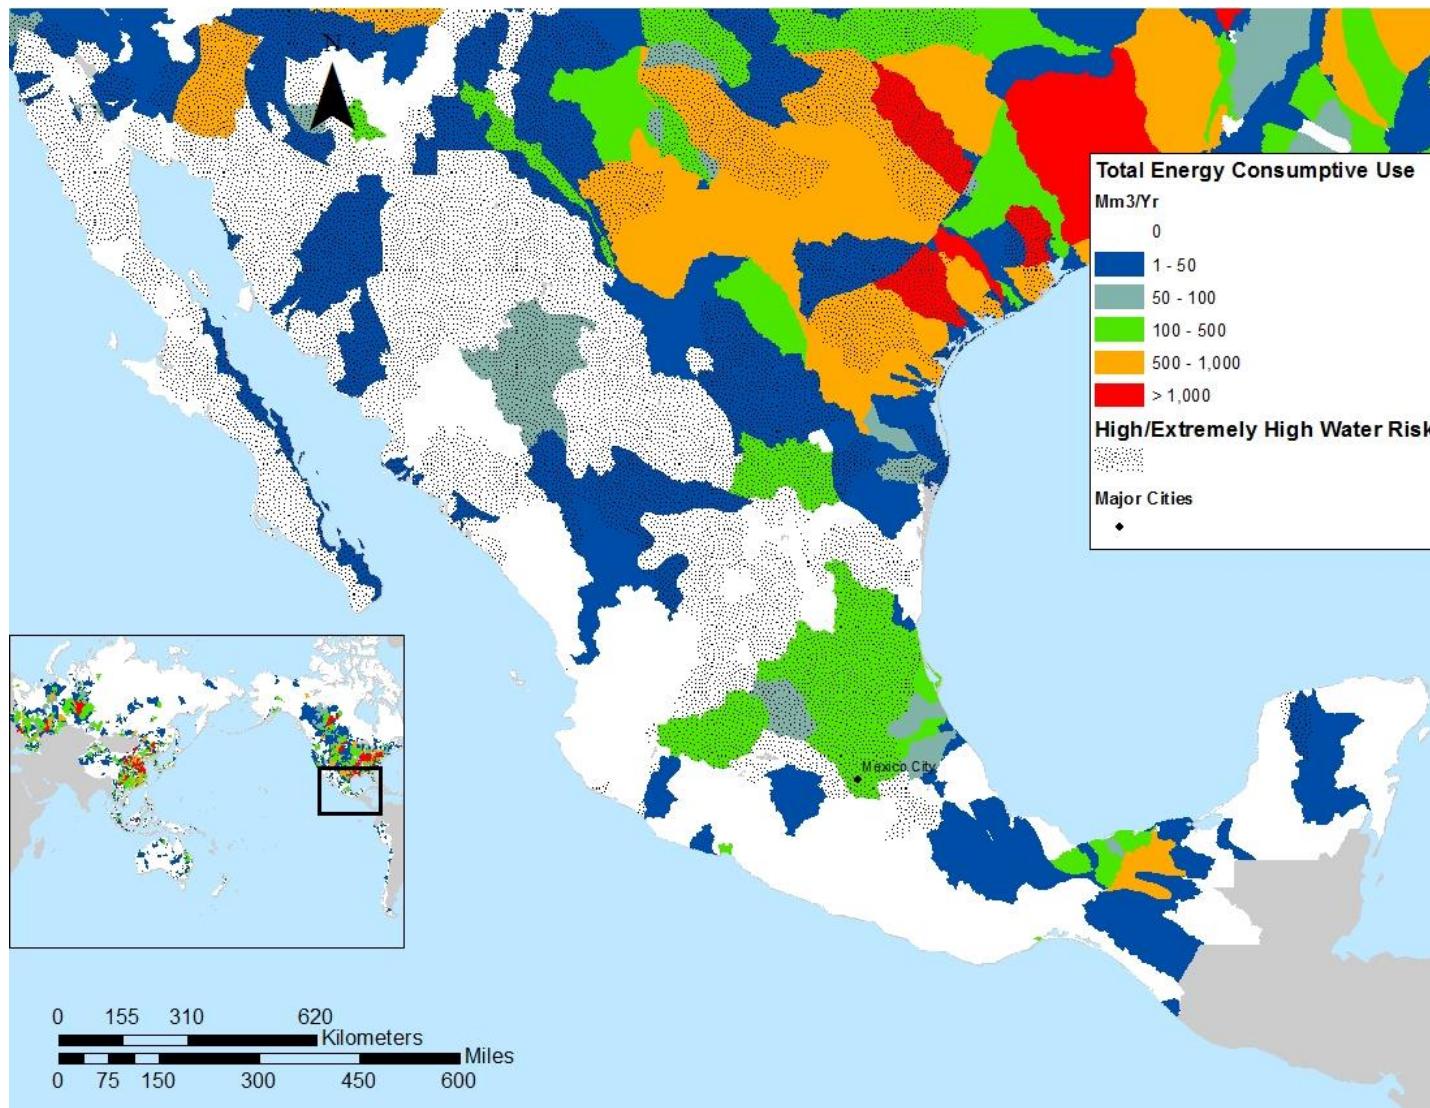

Figure A19: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for Mexico.

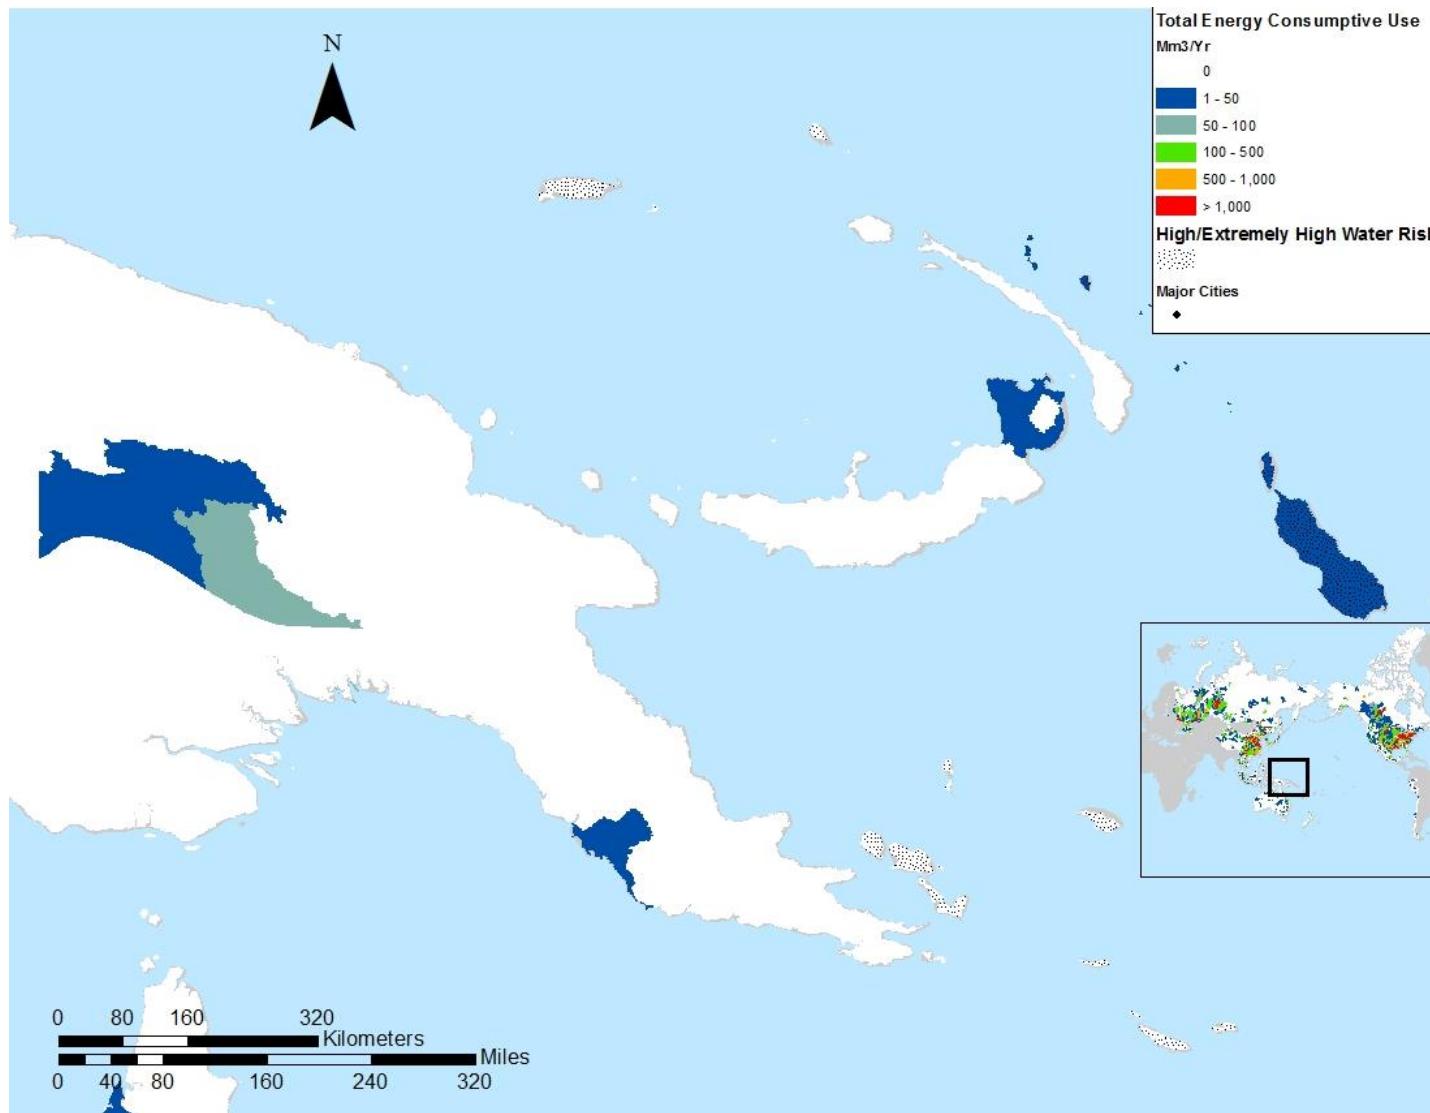

Figure A20: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for Papua New Guinea.

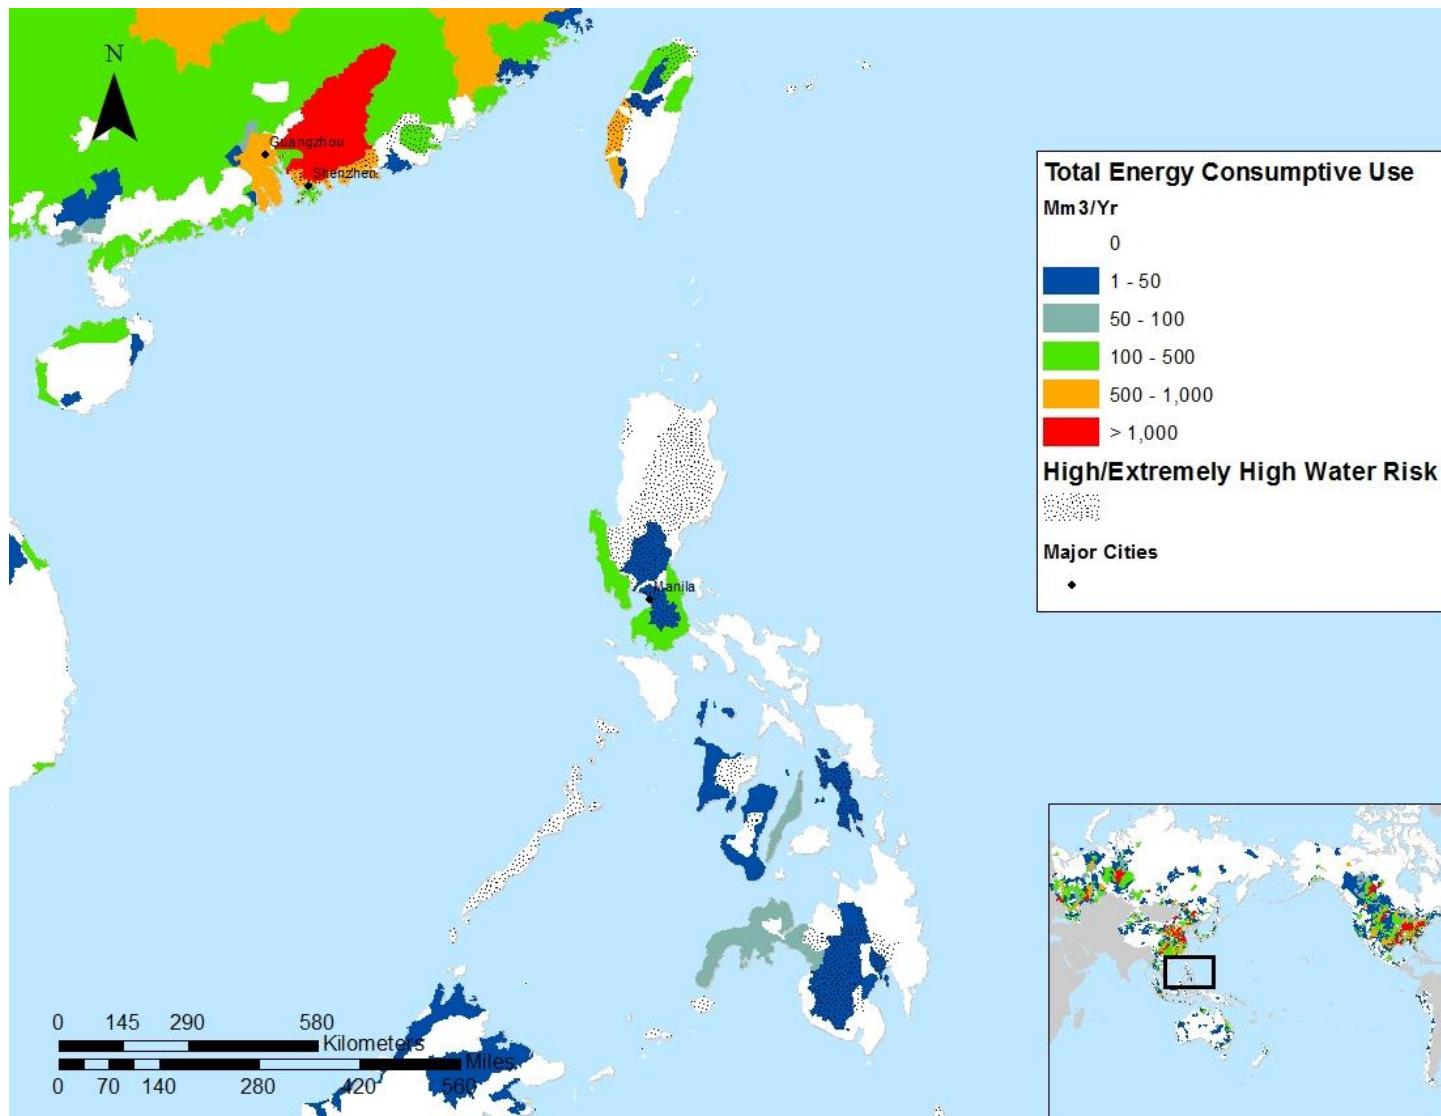

Figure A21: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for the Philippines and Chinese Taipei.

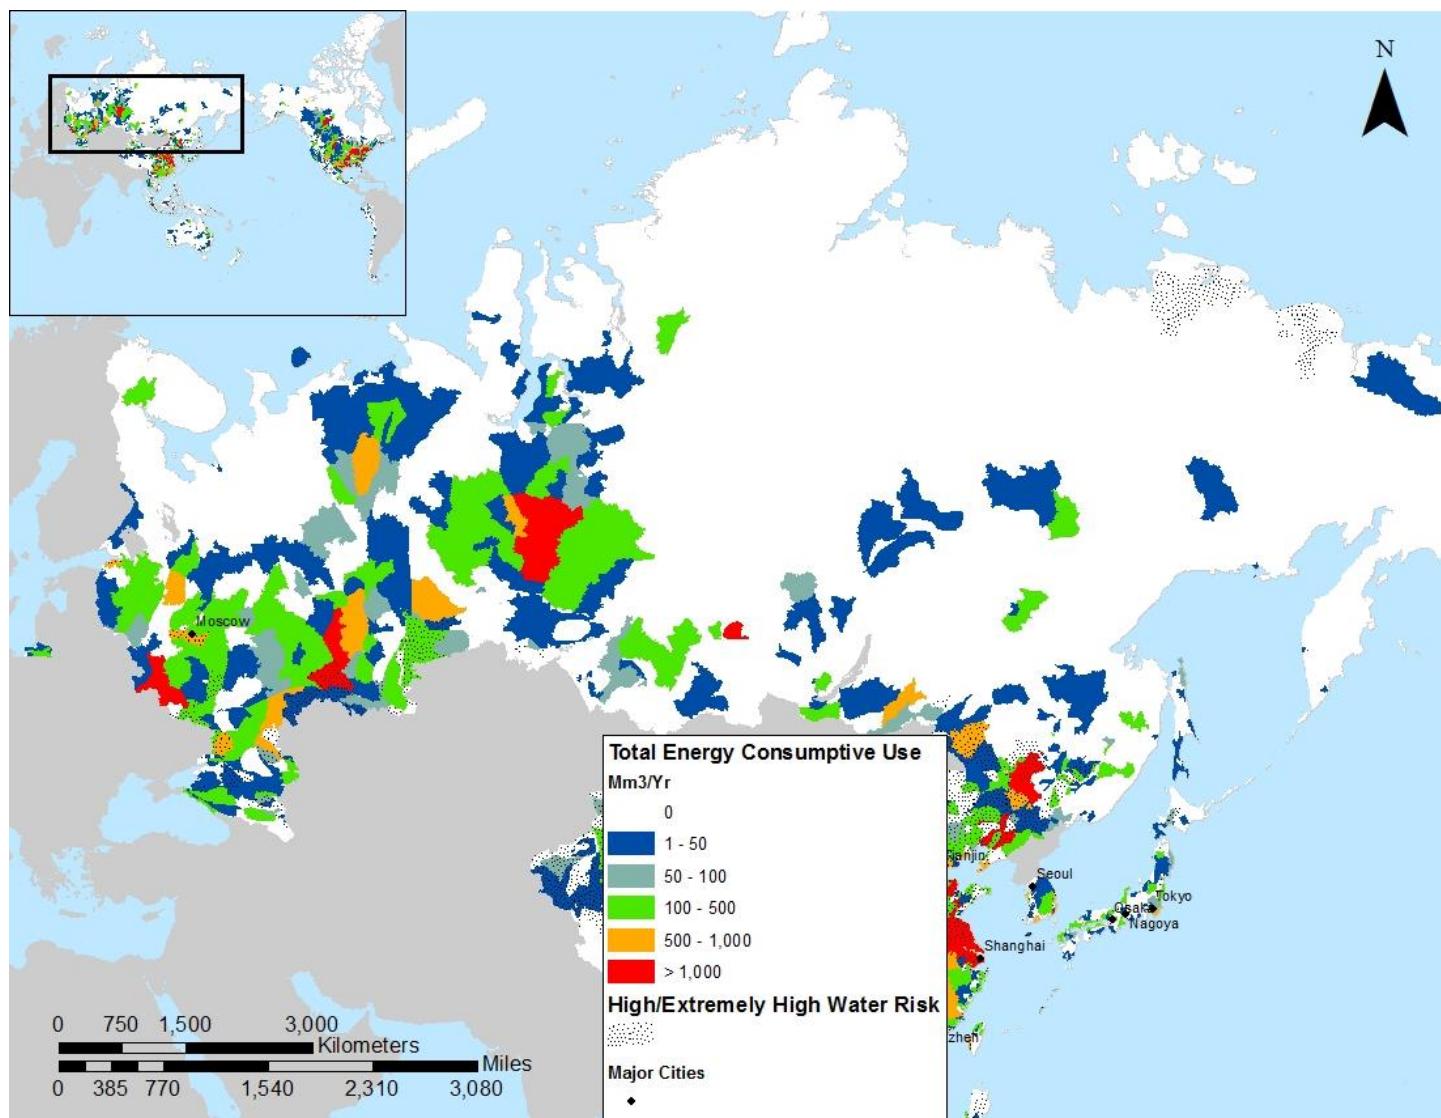

Figure A22: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for Russia.

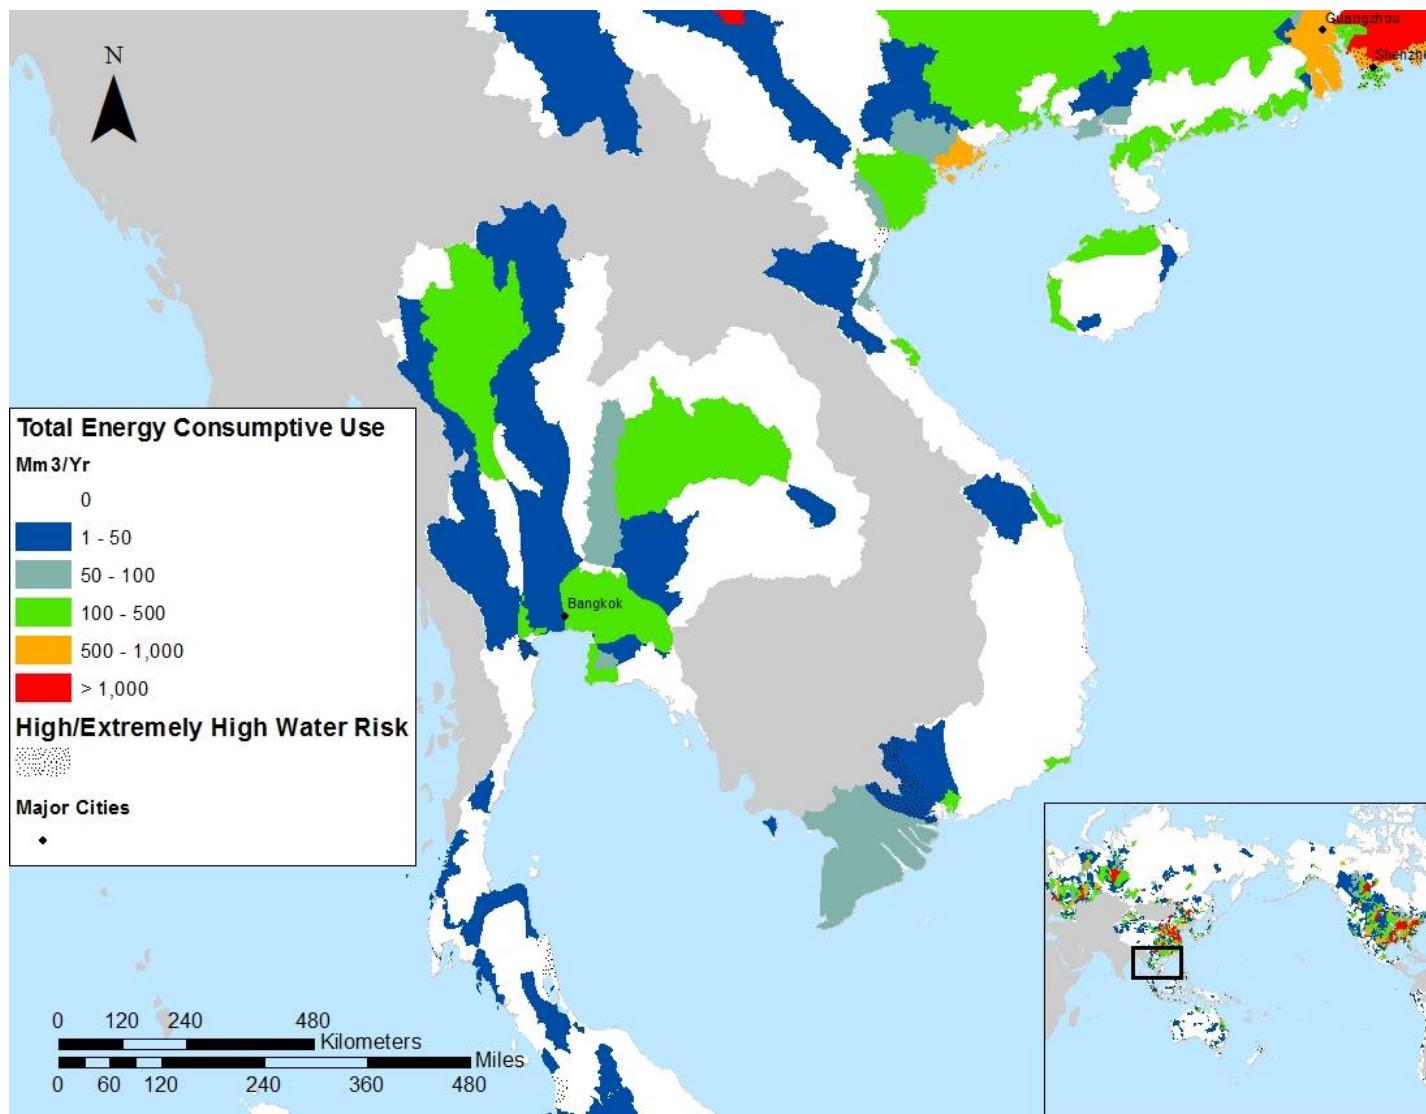

Figure A23: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for Thailand and Viet Nam.

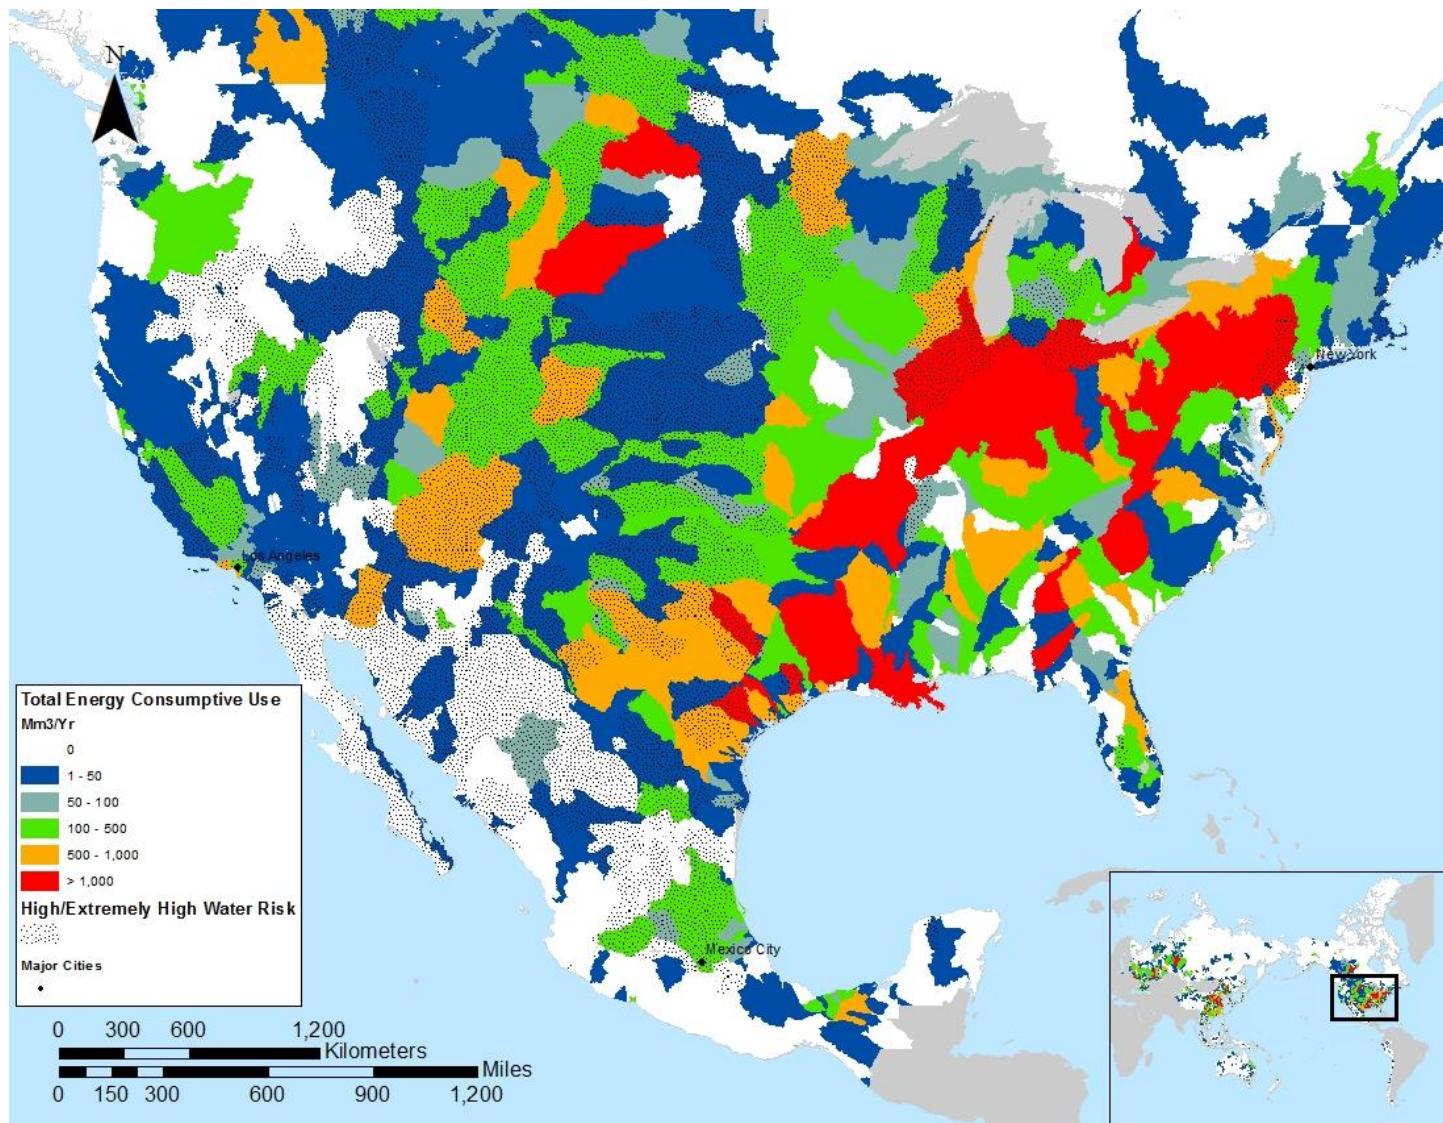

Figure A24: Total water consumption for energy production (Figure A10) mapped over regional water risk (Figure A11 [WRI 2015]) for the United States.

Table A1: Water consumption for energy production aggregated by APEC member economy. Water consumption values are in Mm<sup>3</sup>/yr.

APEC Economy	Thermoelectric	Oil Refining	Bio Fuel Refining	Coal	Uranium	Oil Production	Gas Production	Unconventional Oil and Gas	Hydropower (MW)	Total Water Consumption
Australia	459	38	1	440	93	10	2	0	7959	1043

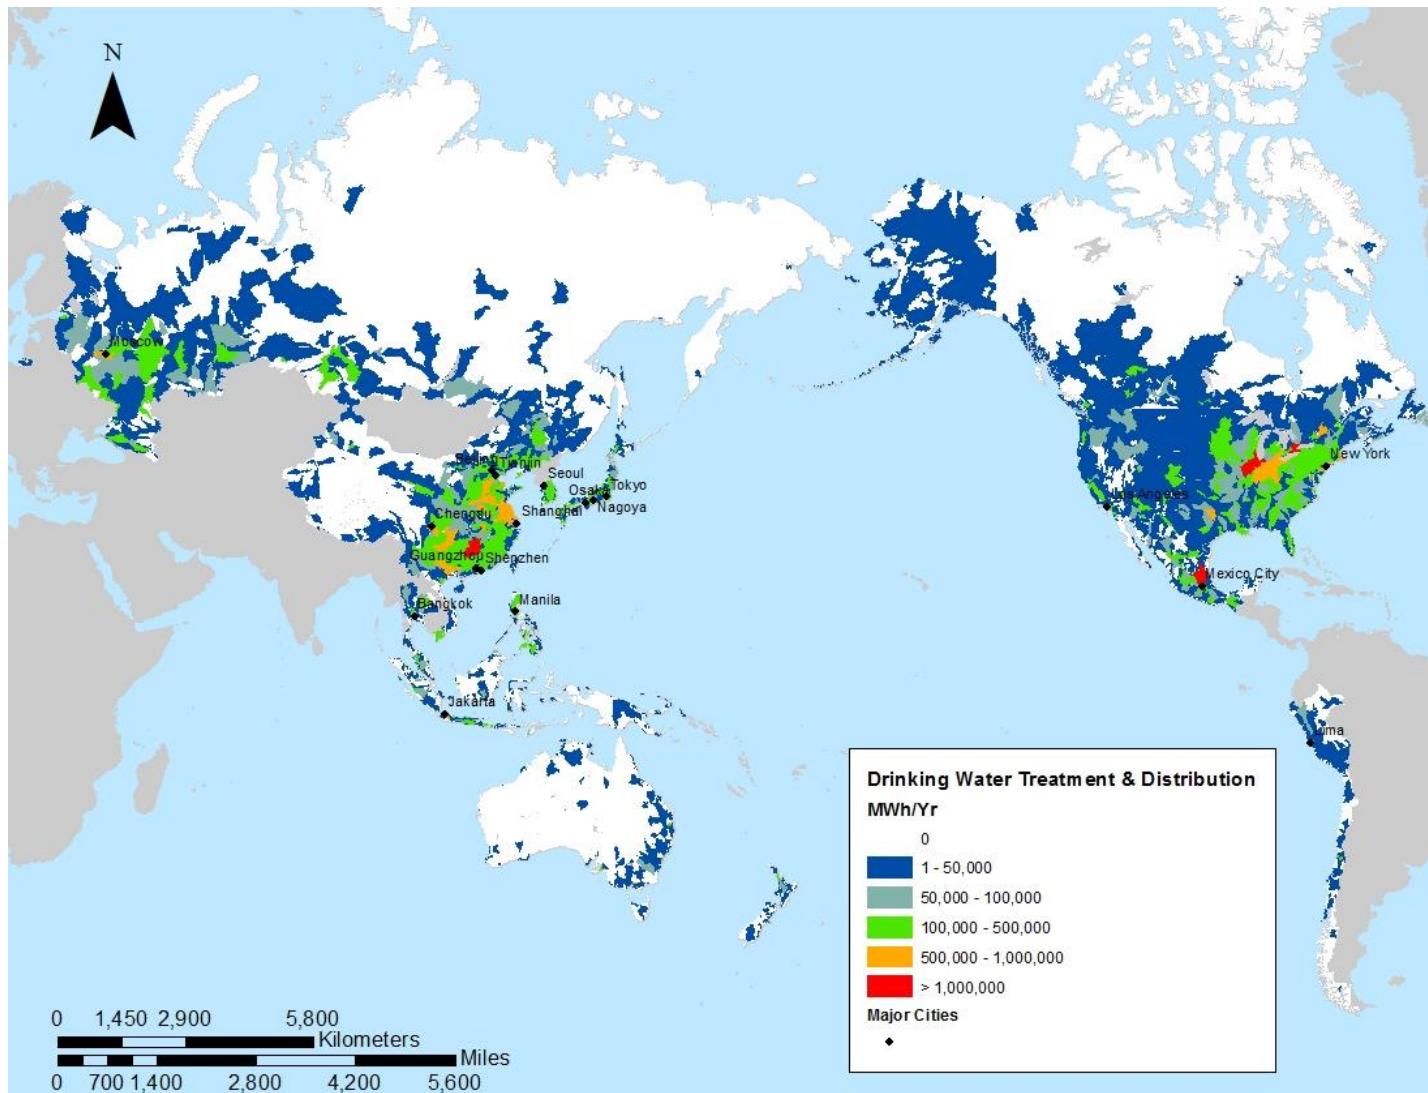

Figure A25: Energy used to provide drinking water services in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

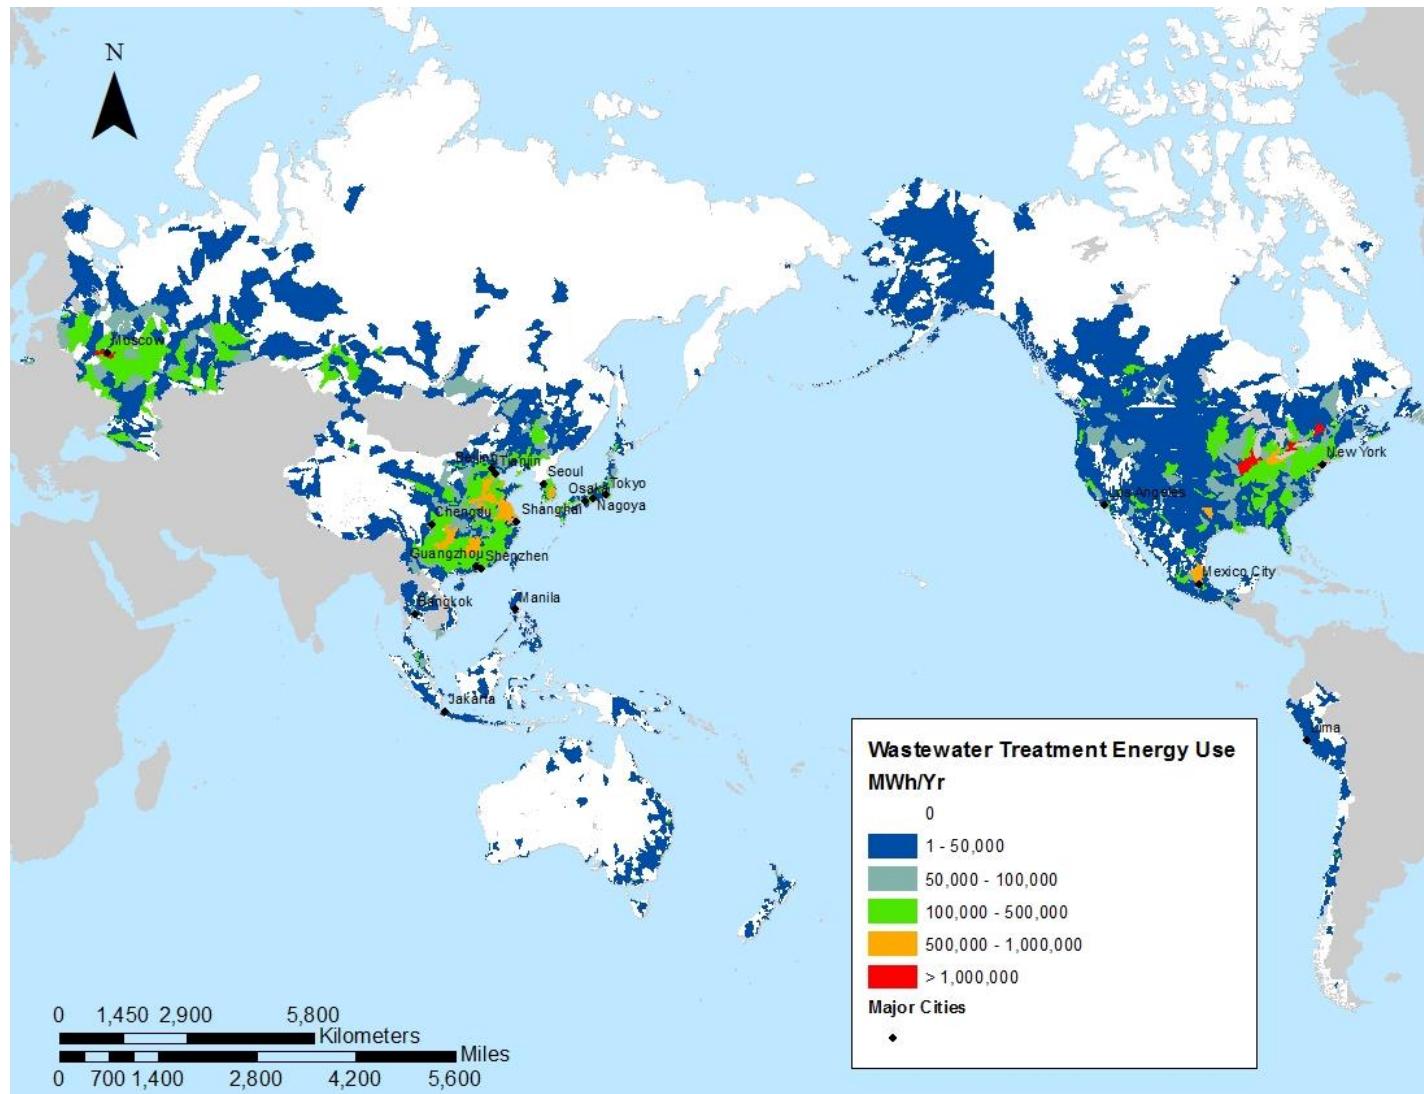

Figure A26: Energy used to provide wastewater services in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

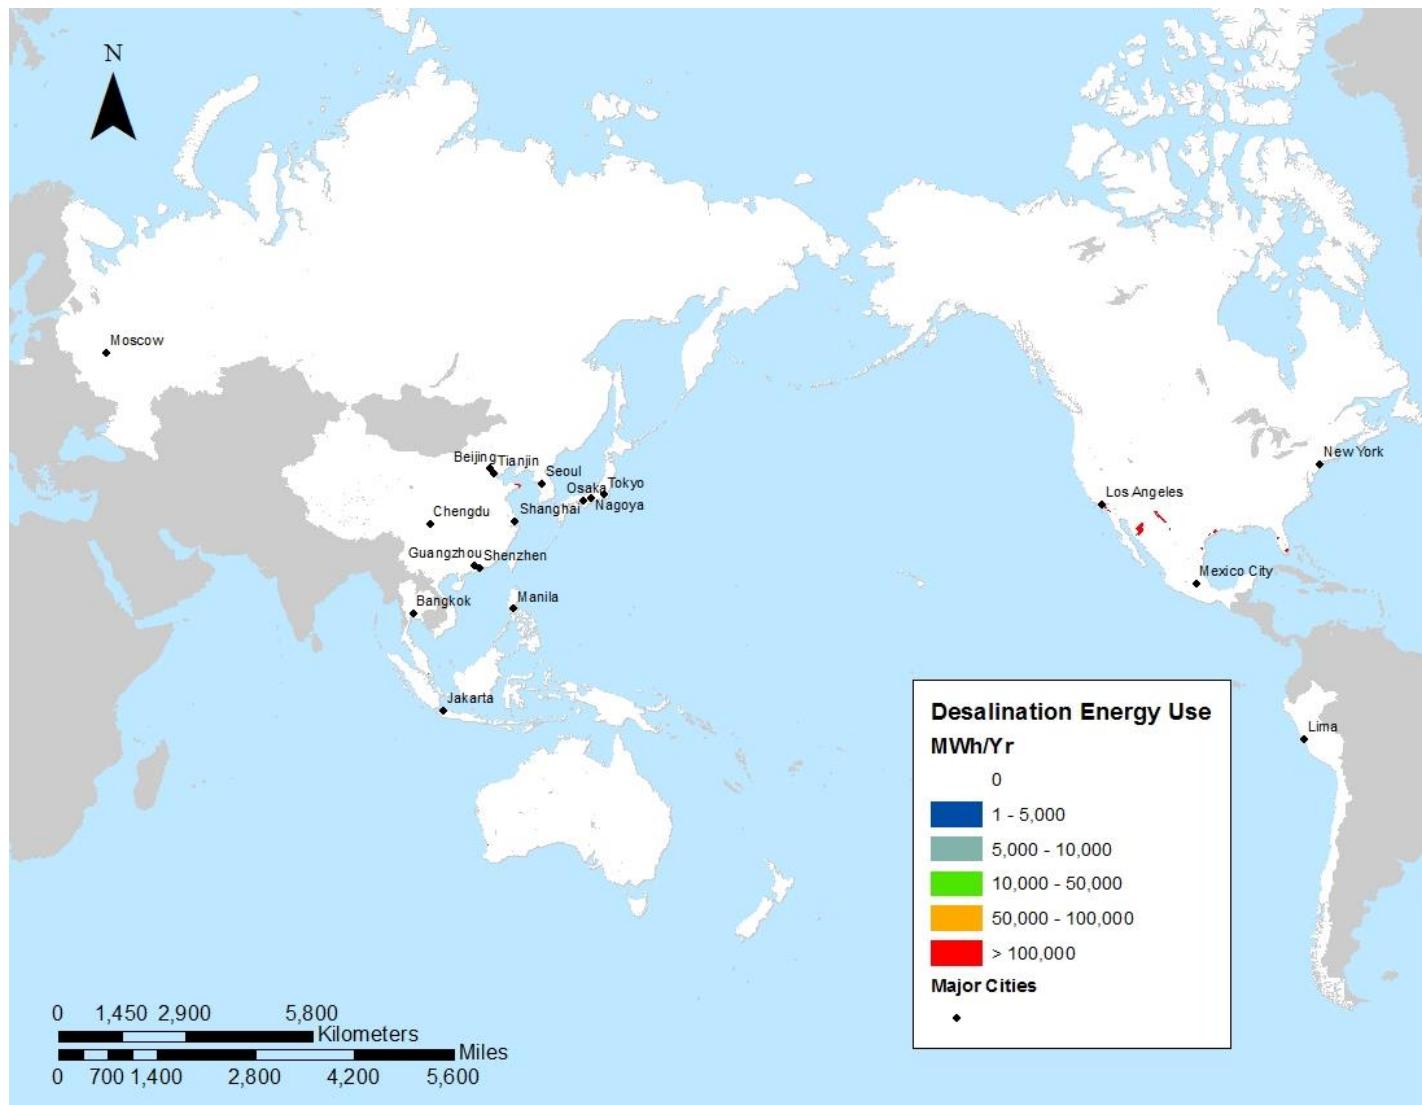

Figure A27: Energy used in desalination plants in the 21-member economies of APEC. Data are mapped for almost 12,000 watersheds across this region.

Table A2: Energy consumption used to provide water services aggregated by water sector and economy.

APEC Economy	Desalination Mwh/yr	Drinking Water Mwh/yr	Wastewater Mwh/yr	Percent of Energy Production
Australia	162,259	2,731,585	1,355,070	1.91
Brunei	-	93,770	298	2.77
Canada	-	5,764,893	6,978,745	2.43
Chile	-	783,291	659,919	2.29
China	186,493	37,886,473	34,053,600	1.61
