

Deployable Wind Power

for Defense and Disaster Response Workshop

Fri. June 17, 2022

10 a.m. ET *Virtual ½ Day Meeting*

High-level Agenda

- Welcome from DOE Wind Energy Technology Office and D3T Team
- Industry Solutions *(60 minutes lightning round)*
- Disaster Response Perspective *(30 minutes)*
- Defense Perspective *(30 minutes)*
- Open Discussion and Feedback *(60 minutes)*

WHAT IS THE TOPIC?

Integrating wind in hybrid deployable energy systems.

WHO SHOULD ATTEND?

Stakeholders from the defense and disaster response communities.

WHO IS ORGANIZING?

Defense and Disaster Response Deployable Turbine (D3T) Team*

WHAT WILL WE LEARN?

Understand the needs of the defense and disaster response communities.

WHAT IS THE OUTCOME?

Connecting wind energy manufacturers with end-users in power integrators.

Register Here: energy.sandia.gov/D3T

**the D3T team includes Sandia National Laboratories, National Renewable Energy Laboratory, Idaho National Laboratory, and the University of Dayton Research Institute.*
